Global Roadmap to Net Zero

PLANET PROMISE
OUR COMMITMENT TO A **SUSTAINABLE FUTURE FOR ALL**

COMPASS GROUP

Our Targets to Net Zero

To make our Climate Net Zero ambitions a reality, the actions we take over the next decade will be crucial. Which is why we have committed to:

- **Approved Science based targets to 2030**
- **Carbon neutrality in our operations by 2030 (Scope 1 & 2)**
- **Climate Net Zero by 2050 across our value chain**

What we do now

- Collaborate with clients on decarbonisation
- Use more seasonal and locally sourced produce
- Increase proportion of plant-based products in menus
- Educate and inform consumers to make more sustainable choices

What we will do

- Transition global fleet vehicles to 100% plug-in electric
- Switch to renewable electricity across our controlled operations
- Invest in decarbonisation projects that accelerate Net Zero innovation
- Increase sourcing from regenerative agriculture across all key food product categories

How we will influence

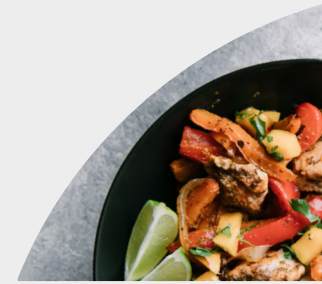
- Deliver a global deforestation-free and land conversion-free supply chain strategy
- Work with suppliers to set their own Climate Net Zero and Science Based Targets
- Share best practice from early adopter countries to drive accelerated transformation globally
- Use our global scale and reach to drive sustainable consumption practices up and down our value chain

Our 2030 Targets:

46% reduction in Scope 1 & 2 direct emissions*

28% reduction in our Scope 3 emissions associated with the food & drink we buy

50% reduction in food waste



Net Zero by 2050

Carbon compensation

Carbon neutralisation

2019 **2030** **2050**
