£4,000,000,000 Euro Medium Term Note Programme

unconditionally and irrevocably guaranteed, in the case of Notes issued by Compass Group International B.V., by Compass Group PLC

This Base Prospectus has been approved by the United Kingdom Financial Conduct Authority (the "FCA"), which is the United Kingdom competent authority for the purposes of Directive 2003/71/EC, as amended (the "**Prospectus Directive**") and relevant implementing measures in the United Kingdom, as a base prospectus issued in compliance with the Prospectus Directive and relevant implementing measures in the United Kingdom. Such approval relates only to the issue of the notes ("**Notes**") under the Euro Medium Term Note Programme (the "**Programme**") of Compass Group PLC ("**Compass PLC**") and Compass Group International B.V. ("**Compass B.V.**"). Each of Compass PLC and Compass B.V. shall be referred to herein as an "**Issuer**", and in respect of issues of Notes by Compass B.V., Compass PLC shall be a guarantor (in such capacity, the "**Guarantor**"). Such approval also relates only to the issue of Notes under the Programme, described in this Base Prospectus which are to be admitted to trading within the period of 12 months from the date of this Base Prospectus on a regulated market for the purposes of Directive 2004/39/EC (the "**Markets in Financial Instruments Directive**") and/or which are to be offered to the public in any Member State of the European Economic Area ("**EEA**"), other than in circumstances where an exemption is available under Article 3.2 of the Prospectus Directive (as implemented in the relevant Member State(s)). References in this Base Prospectus to "**Exempt Notes**" are to Notes issued under the Programme for which no prospectus is required to be published under the Prospectus Directive. The FCA has neither approved nor reviewed information contained in this Base Prospectus in connection with Exempt Notes.

Applications have been made for the Notes (other than the Exempt Notes) to be admitted during the period of twelve months after the date hereof to listing on the Official List of the FCA and to trading on the Regulated Market of the London Stock Exchange plc (the "**London Stock Exchange**"). The Regulated Market of the London Stock Exchange is a regulated market for the purposes of Directive 2004/39/EC on markets in financial instruments. The applicable pricing supplement (the "**Pricing Supplement**") in respect of the issue of any Exempt Notes will specify whether or not such Exempt Notes will be admitted to listing or trading on any non-EEA stock exchanges and/or markets, if applicable.

Investing in Notes issued under the Programme involves certain risks. The principal risk factors that may affect the abilities of the Issuers and/or the Guarantor, as the case may be, to fulfil their respective obligations under the Notes or the Guarantee (as defined below) as the case may be, are discussed under "Risk Factors" below.

Neither the Notes nor the Guarantee have been, nor will they be, registered under the United States Securities Act of 1933, as amended (the "**Securities Act**") or with any securities regulatory authority of any state or other jurisdiction of the United States, and Notes in bearer form are subject to U.S. tax law requirements. The Notes may not be offered, sold or (in the case of Notes in bearer form) delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act ("**Regulation S**")) except in certain transactions exempt from the registration requirements of the Securities Act.

Compass PLC has been assigned a rating of A and Compass B.V. has been assigned a rating of A by Standard & Poor's Credit Market Services Europe Limited ("**Standard and Poor's**"). The Programme has been assigned a rating of A by Standard and Poor's and a rating of (P) A3 by Moody's Investors Service Limited ("**Moody's**"). Each of Standard and Poor's and Moody's is a credit rating agency established and operating in the European Community and registered under Regulation (EU) No 1060/2009 as amended (the "**CRA Regulation**"). Tranches of Notes issued under the Programme may be rated or unrated. Where a Tranche of Notes is rated, such rating(s) will not necessarily be the same as the ratings described above or the rating(s) assigned to Notes already issued. The rating(s) assigned to a particular Tranche of Notes issued under the Programme will be disclosed in the Final Terms. The European Securities and Markets Authority ("**ESMA**") is obliged to maintain on its website (www.esma.europa.eu/page/Listregistered-and-certified-CRAs) a list of credit rating agencies registered and certified in accordance with the CRA Regulation. A rating is not a recommendation to buy, sell or hold Notes and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

IMPORTANT NOTICES

This Base Prospectus (together with any supplementary prospectus and any documents incorporated by reference, the "**Base Prospectus**") contains summary information provided by Compass B.V. and by Compass PLC in connection with the Programme under which Compass B.V. and Compass PLC may issue and have outstanding at any time Notes up to a maximum aggregate amount of £4,000,000,000 or its equivalent in alternative currencies, and in respect of Notes issued by Compass B.V., with the benefit of a guarantee by Compass PLC. Under the Programme, the Issuers may issue Notes outside the United States pursuant to Regulation S ("**Regulation S**") of the United States Securities Act of 1933, as amended (the "**Securities Act**"). Each of Compass B.V. and Compass PLC has, pursuant to an amended and restated dealer agreement dated 31 May 2017 (the "**Dealer Agreement**"), appointed Citigroup Global Markets as dealer for the Notes (together with any dealers for the day, the "**Dealers**"), and authorised and requested the Dealers to circulate the Base Prospectus in connection with the Programme on their behalf to purchasers or potential purchasers of the Notes.

Compass B.V. and Compass PLC each accept responsibility for the information contained in this Base Prospectus and the Final Terms (as defined below) for each Tranche (as defined herein) of Notes issued under the Programme and each declares that, having taken all reasonable care to ensure that such is the case, the information contained in this Base Prospectus and any Final Terms is, to the best of their knowledge in accordance with the facts and contains no omission likely to affect its import.

Each Tranche (as defined herein) of Notes will be issued on the terms set out herein under "Terms and Conditions of the Notes" (the "**Conditions**") as completed by a document specific to such Tranche called final terms (the "**Final Terms**") or (in the case of Exempt Notes) a Pricing Supplement or in a separate prospectus specific to such Tranche (the "**Drawdown Prospectus**") as described under "Final Terms, Pricing Supplements and Drawdown Prospectuses" below. In the case of a Tranche of Notes which is the subject of a Pricing Supplement or a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Pricing Supplement (in the case of Exempt Notes) or Drawdown Prospectus unless the context requires otherwise. This Base Prospectus must be read and construed together with any amendments or supplements hereto and with any information incorporated by reference herein and, in relation to any Tranche of Notes which is the subject of Final Terms, must be read and construed together with the relevant Final Terms.

Each of Compass PLC and Compass B.V. has confirmed to the Dealers named under "Subscription and Sale" below that this Base Prospectus contains all information which is (in the context of the Programme, the issue, offering and sale of the Notes) material; that such information is true and accurate in all material respects and is not misleading in any material respect; that any opinions, predictions or intentions expressed herein are honestly held or made and are not misleading in any material respect; that this Base Prospectus does not omit to state any material fact necessary to make such information, opinions, predictions or intentions (in the context of the Programme, the issue, offering and sale of the Notes) not misleading in any material respect; and that all proper enquiries have been made to verify the foregoing.

No person has been authorised to give any information or to make any representation not contained in or not consistent with this Base Prospectus or any other document entered into in relation to the Programme or any information supplied by the Issuers and/or the Guarantor, as the case may be, or such other information as is in the public domain and, if given or made, such information or representation should not be relied upon as having been authorised by any of the Issuers, the Guarantor, the Trustee or any Dealer.

None of the Trustee, the Dealers nor any of their respective affiliates have authorised the whole or any part of this Base Prospectus and none of them makes any representation or warranty or accepts any responsibility as to the accuracy or completeness of the information contained in this Base Prospectus. Neither the delivery of this Base Prospectus or any Final Terms nor the offering, sale or delivery of any Note shall, in any circumstances, create any implication that the information contained in this Base Prospectus is true subsequent to the date hereof or the date upon which this Base Prospectus has been most recently amended or supplemented or that there has been no adverse change, or any event reasonably likely to involve any adverse change, in the prospects or financial or trading position of the Issuers and/or the Guarantor as the case may be, since the date thereof or, if later, the date upon which this Base Prospectus has been most recently amended or supplemented or that any other information

supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The distribution of this Base Prospectus and any Final Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus or any Final Terms comes are required by Compass PLC, Compass B.V. and the Dealers to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Base Prospectus or any Final Terms and other offering material relating to the Notes, see "*Subscription and Sale*" and "*Transfer Restrictions*".

In particular, neither the Notes nor the Guarantee have been, nor will they be, registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States, and Notes in bearer form are subject to U.S. tax law requirements. The Notes may not be offered, sold or (in the case of Notes in bearer form) delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in "**Regulation S**") except in certain transactions exempt from the registration requirements of the Securities Act.

The Notes may be offered and sold in bearer form or registered form outside the United States to non-U.S. persons in reliance on Regulation S. For a description of these and certain further restrictions on offers, sales and transfers of Notes, see "*Subscription and Sale*" and "*Transfer Restrictions*".

NEITHER THE PROGRAMME NOR THE NOTES NOR THE GUARANTEE HAVE BEEN APPROVED OR DISAPPROVED BY THE U.S. SECURITIES AND EXCHANGE COMMISSION (THE "SEC"), ANY STATE SECURITIES COMMISSION IN THE UNITED STATES OR ANY OTHER U.S. REGULATORY AUTHORITY, NOR HAS ANY OF THE FOREGOING AUTHORITIES PASSED UPON OR ENDORSED THE MERITS OF ANY OFFERING OF NOTES OR THE ACCURACY OR ADEQUACY OF THIS BASE PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

IMPORTANT – EEA RETAIL INVESTORS - If the Final Terms (or Pricing Supplement, as the case may be) in respect of any Notes includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Notes are not intended, from the date of application of Regulation (EU) No. 1286/2014 (the "**PRIIPs Regulation**"), to be offered, sold or otherwise made available to and, with effect from such date, should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("**MiFID II**"); (ii) a customer within the meaning of Directive 2002/92/EC ("**IMD**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the "**Prospectus Directive**"). Consequently no key information document required by the PRIIPS Regulation for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPS Regulation.

Neither this Base Prospectus nor any Final Terms constitutes an offer or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by Compass PLC, Compass B.V., the Trustee, the Dealers or any of them that any recipient of this Base Prospectus or any Final Terms should subscribe for or purchase any Notes. Each recipient of this Base Prospectus or any Final Terms shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuers and/or the Guarantor.

The maximum aggregate principal amount of Notes outstanding at any one time under the Programme will not exceed £4,000,000,000 (and for this purpose, any Notes denominated in another currency shall be translated into Sterling at the date of the agreement to issue such Notes (calculated in accordance with the provisions of the Dealer Agreement). The maximum aggregate principal amount of Notes which may be outstanding at any one time under the Programme may be increased from time to time, subject to compliance with the relevant provisions of the Dealer Agreement as defined under "*Subscription and Sale*".

In this Base Prospectus, unless otherwise specified, references to a "**Member State**" are references to a Member State of the European Economic Area, references to "**U.S.\$**", "**U.S. dollars**" or "**dollars**" are to United States dollars, references to "**Euro**", "**euro**", "**EUR**" or "**€**" are to the currency introduced at the start of the third stage of European economic and monetary union, and as defined in Article 2 of Council Regulation (EC) No 974/98 of 3 May 1998 on the introduction of the Euro as amended, and references to "**Sterling**", or "**£**" are to pounds sterling.

Certain figures included in this Base Prospectus have been subject to rounding adjustments; accordingly, figures shown for the same category presented in different tables may vary slightly and figures shown as totals in certain tables may not be an arithmetic aggregation of the figures which precede them.

This Base Prospectus has been prepared on the basis that any offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive 2003/71/EC, as amended (the "**Prospectus Directive**") (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of Notes which are the subject of an offering contemplated in this Base Prospectus as completed by Final Terms, a Pricing Supplement (in the case of Exempt Notes) or a Drawdown Prospectus in relation to the offer of those Notes may only do so in circumstances in which no obligation arises for Compass PLC, Compass B.V. or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither Compass PLC, Compass B.V. nor any Dealer have authorised, nor do they authorise, the making of any offer of Notes in circumstances in which an obligation arises for Compass PLC, Compass B.V. or any Dealer to publish or supplement a prospectus for such offer.

The Notes may not be a suitable investment for all investors. *Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:*

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this base prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) acting as the Stabilising Manager(s) (or persons acting on behalf of any Stabilising Manager(s)) may over allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any

stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the Stabilising Manager(s) (or persons acting on behalf of the Stabilising Manager(s)) in accordance with all applicable laws and rules.

FORWARD-LOOKING STATEMENTS

This Base Prospectus contains certain forward-looking statements. The words "anticipate", "believe", "expect", "plan", "intend", "targets", "aims", "estimate", "project", "will", "would", "may", "could", "continue" and similar expressions are intended to identify forward-looking statements. All statements other than statements of historical fact included in this Base Prospectus, including, without limitation, those regarding the financial position, business strategy, management plans and objectives for future operations of the Issuers and/or the Guarantor are forward looking statements. These forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause our actual results, performance or achievements, or industry results, to be materially different from those expressed or implied by these forward-looking statements. These forward looking statements are based on numerous assumptions regarding each Issuer's and the Guarantor's present and future business strategies and the environment in which it expects to operate in the future.

Any forward-looking statements made by or on behalf of the Issuers and/or the Guarantor speak only as at the date they are made. The Issuers and/or the Guarantor do not undertake to update forward-looking statements to reflect any changes in its expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based.

RISK FACTORS

The Group believes that the following factors may affect its ability to fulfil its obligations under Notes issued under the Programme which may in turn result in investors losing the value of their investment. Most of these factors are contingencies which may or may not occur and the Group is not in a position to express a view on the likelihood of any such contingency occurring.

In addition, factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below.

The Group believes that the factors described below represent the principal risks inherent in investing in Notes issued under the Programme, but the inability of the Group to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the Group does not represent that the statements below regarding the risks of holding any Notes are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this Prospectus (including any documents incorporated by reference herein) and reach their own views prior to making any investment decision.

Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Base Prospectus have the same meanings in this section.

Risks Related to the Issuers and the Guarantor

Compass PLC is reliant upon dividend and interest income being received from its subsidiaries in order to satisfy any payment obligations under the Notes, or, as the case may be, under the Guarantee and Compass B.V. is reliant upon dividend income from its subsidiaries and interest income from its financing activities within the Group, including an inter-company loan with Compass PLC, in order to satisfy any payment obligations under the Notes

Compass PLC is the holding company of the Group and Compass B.V. is an intermediate holding company within the Group. As a result, the assets of both Compass PLC and Compass B.V. consist principally of their shareholdings in and loans to other companies in the Group. The ability of Compass PLC to satisfy any payment obligations under the Notes or the Guarantee, as the case may be, is dependent upon its receipt of dividend and interest payments from other members of the Group. The ability of Compass B.V. to satisfy any payment obligations under the Notes is dependent upon its receipt of dividend and interest payments from its financing activities within the Group, including from Compass PLC and its subsidiaries, and dividend receipts from its subsidiaries. It is intended that proceeds received by Compass B.V. from Noteholders will be lent to Compass PLC under an inter-company loan and that any interest received from such loan will be used by Compass B.V. to fund payments due to Noteholders. In circumstances where one or more of the risks referred to herein arises and adversely affects the business, financial condition or operational results of any member of the Group there may in turn be an adverse effect on the ability of that member of the Group to make dividend and interest payments to either Compass PLC or Compass B.V. so as to enable Compass PLC or Compass B.V., as applicable, to satisfy its payment obligations under the Notes, or, as the case may be, under the Guarantee.

Health and Safety

Health and safety is the Group's number one operational priority. The Group is focused on protecting people's wellbeing, as well as avoiding serious business interruption and potential damage to its reputation. Compass PLC feeds millions of consumers, employs thousands of people and operates in client premises in a number of different locations around the world every day. Therefore, setting the highest standards for food hygiene and health and safety is paramount. The Group has policies, procedures and standards in place to ensure compliance with legal obligations and industry standards. If the Group was to incur significant liability as a consequence of the disruption of a client's operations or injury to any person resulting from health and safety related aspects of its operations, this could have adverse consequences on its activities, operating margins and reputation.

Clients and Consumers

The Group's business relies on securing and retaining a diverse range of clients. Successfully bidding for new contracts, and retaining or renewing contracts with existing clients, is fundamental to the Group's business. Its success in this regard depends on its ability to differentiate its offers from those of its

competitors, and meet client expectations in service quality and value. Failure to do so could have an adverse impact on the Group's business. In addition, the Group contracts with a large number of clients. Failure to comply with the terms of these contracts, including proper delivery of services, could lead to loss of business.

Credit risk

At any one point in time the Group will hold a significant level of trade receivables, and is therefore exposed to the risk that it may not be able to collect the full value of its trade receivables if the creditworthiness of its individual clients was to deteriorate. The concentration of the Group's credit risk is limited as a result of the diverse and unrelated nature of its client base; however, an economic downturn could affect the solvency of clients, and result in loss to the Group.

People

The Group employs over 500,000 people worldwide. Failure to attract and recruit people with the right skills at all levels could limit the success of the Group. The Group faces resourcing challenges in some of its businesses due to a lack of industry experience amongst candidates and appropriately qualified people, and the seasonal nature of some of its business. The Group's business, financial condition and operational results may be adversely affected if suitable personnel are not recruited, trained, retained and motivated to work for the Group.

Economic and Political Environment

As a global business operating in countries and regions with diverse economic and political conditions, the Group's operations and earnings may be adversely affected by political or economic instability, including instability caused by the implementation of the UK's decision to exit the European Union ("**Brexit**") and political reform in the U.S., and some sectors of our business could be susceptible to adverse changes in economic conditions and employment levels.

Following Brexit and the announcement of a UK general election to be held on 8 June 2017, there is significant uncertainty about the withdrawal process from the European Union, its timeframe, the outcome of negotiations about future arrangements between the UK and the European Union, and the period for which existing European Union laws for member states continue to apply to the UK. The Group views the potential impact of Brexit as an integral part of its principal risks rather than as a stand-alone risk. As the process of Brexit evolves, the Group will continue to assess its impact.

The Group has significant operations and a substantial employee base in North America, where the new administration in the U.S. has signalled broad policy changes. Some of these potential changes in policy are in respect of trade and tax, none of which are clear at this stage. The Group is closely monitoring developments from the new administration in the U.S. and will continue to assess the impact of changes when there is more clarity on the nature of the changes and the extent to which they will be enacted.

An increase in the cost of labour for example, minimum wages in the U.S. and UK, or food, especially in countries such as Brazil, could constitute a risk to the Group's ability to deliver the right level of service in the most efficient way. As part of the Group's MAP framework, it seeks to manage cost inflation through continuing to drive greater efficiencies through cost indexation in the Group's contracts giving the Group the contractual right to review pricing with clients, menu management (the substitution of ingredients in response to any assumptions shortages and cost increases), supplier rationalisation, labour flexibility and scheduling and productivity. A significant or sustained increase in input costs to which the Group is unable to respond through cost reduction measures or price increases could have an adverse effect on the business, financial condition and results of operations of the Group.

Competition

The Group operates in a highly competitive marketplace. The level of concentration and outsource penetration varies by country and by sector. Some of the markets in which the Group operates are relatively concentrated, with only two or three key players, whilst others are highly fragmented and offer more opportunity for consolidation and penetration of the self operated market. Aggressive pricing from the Group's competitors could cause a reduction in the Group's revenues and adversely impact financial performance.

Compliance and Fraud

The Group is a multinational business and is subject to regulation by governmental, competition and regulatory bodies. Ineffective compliance management with laws and regulations, or evidence of fraud, could have an adverse effect on the Group's reputation and could result in an adverse impact on the Group's performance if significant financial penalties were to be levied or a criminal action were to be brought against the Company or its directors. The Group's operating companies contract with a large number of clients. Failure to comply with the terms of these contracts, including proper delivery or services, could lead to loss of business. The Group seeks to plan and manage its tax affairs efficiently in the jurisdictions in which it operates. In doing so it acts in compliance with the relevant laws and disclosure requirements. However, in an increasingly complex international corporate tax environment, a degree of uncertainty is inevitable and we note in particular the policy efforts being led by the EU and the OECD which may have a material impact on the taxation of all international businesses.

Suppliers

The Group has supply relationships with growers, food manufacturers, distributors, and logistics providers, which it uses for the sourcing and delivery of food and other supplies. The Group recognises that it needs to develop long-term supply relationships whilst ensuring that such relationships are conducted on favourable terms both as to quality and price. Although the Group seeks to avoid over-reliance on any one supplier, distributor or logistics provider or distribution network, which in most cases are organised on a country by country basis, sustained disruption to a major supplier which results in disruption to the supply chain could adversely impact the financial condition and results of the Group's regional operations.

Information Technology and Infrastructure

The Group relies on a variety of IT systems in order to manage and deliver services and communicate with its customers, suppliers and employees. The digital world creates many risks for a global business, including technology failures and loss of confidential information. Disruption caused by the failure of key software applications, or underlying equipment or communication networks, could delay day-to-day decision making, management reporting and efficient product delivery, which in turn may have an adverse effect on the Group's business, financial condition and results of operations.

Reputational Risk

The Group's brands represent a key element of its overall marketing and positioning. Damage to its brands or reputation may have an adverse effect on the Group's business, financial condition and results of operations.

Currency Fluctuations

The Group operates in a number of countries. Its operating companies will generally buy and sell in their local currencies. However, on consolidation the local currency results and closing balances sheets will be translated into sterling, which is the Group's reporting currency. The Group's consolidated financial statements will therefore be impacted by fluctuations in the currencies of its underlying businesses, in particular the U.S. dollar and the Euro, against sterling.

While the Group implements currency hedging policies, the sterling value of both its net debt and operating profits may fluctuate as exchange rates vary.

Liquidity Risk

The Group raises finance in both the public markets and the US private placement market, and therefore it depends on access to investors in these capital markets. The Group also uses committed and uncommitted bank loans and other lines of credit to cover its liquidity needs. Global events have, from time to time, resulted in the closure of the debt capital markets and a reduced capacity within the bank and private placement market to provide credit lines or loans.

Reduced appetite for the Group's debt instruments in such markets could limit the ability of the Group to fund operations.

Interest Rate Risk

The Group's debt service costs are subject to variations in the underlying interest rates. In order to mitigate the impact of interest rate fluctuation, the Group's policy is to fix the interest rates on its principal debt currencies so that, in the short term, it is not materially exposed to changes in interest rates. Sustained long term increases in interest rates could adversely affect the financial position and operating results of the Group.

Environment

The Group is required to run its operations in compliance with legislation concerning the protection of the environment.

The Group principally carries out its activities on its clients' sites. Activities which may have an impact on the environment include consumption of water and energy, food preparation and cleaning services and production of waste from food preparation and cleaning.

Costs, fines, damages and sanctions may be incurred, or interruptions may be experienced in operations for actual or alleged violations arising under any environmental laws.

Acquisitions and Investments

The Group may acquire businesses, and make capital investments. Difficulties in integrating acquired businesses, or realising the expected synergies or benefits of capital investment may have an adverse effect on the Group's business, financial condition and results of operations.

Pensions Risk

The Group operates a number of pension schemes around the world, some of which offer defined benefits. The Group's UK defined benefit pension scheme is closed to new entrants, other than for transfers under public sector contracts in the UK where the UK trading subsidiaries of Compass PLC are obliged to provide final salary benefits to transferring employees, and future accrual has ceased in this scheme. Steps have also been taken to reduce the investment risk in these schemes, however should investment returns be insufficient to meet the scheme liabilities the Group will have to fund any shortfall.

Factors which are material for the purpose of assessing the market risks associated with Notes issued under the Programme

Risks related to the structure of a particular issue of Notes

Notes may have features which present particular risks for potential investors. Set out below is a description of the most common such features:

Notes subject to optional redemption by the relevant Issuer

An optional redemption feature of Notes is likely to limit their market value. During any period when the relevant Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The relevant Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Variable rate Notes with a multiplier or other leverage factor

Notes with variable interest rates can be volatile investments. If they are structured to include multipliers or other leverage factors, or caps or floors, or any combination of those features or other similar related features, their market values may be even more volatile than those for securities that do not include those features.

Inverse Floating Rate Notes

Inverse Floating Rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as LIBOR. The market values of those Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Fixed/Floating Rate Notes

Fixed/Floating Rate Notes may bear interest at a rate that converts from a fixed rate to a floating rate, or from a floating rate to a fixed rate. Where the relevant Issuer has the right to effect such a conversion, this will affect the secondary market and the market value of the Notes since the relevant Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the relevant Issuer converts from a fixed rate to a floating rate in such circumstances, the spread on the Fixed/Floating Rate Notes may be less favourable than then prevailing spreads on comparable Floating Rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the relevant Issuer converts from a floating rate to a fixed rate in such circumstances, the fixed rate may be lower than then prevailing rates on its Notes.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining terms of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Risks related to Notes generally

Set out below is a brief description of certain risks relating to the Notes generally:

Modification, and waivers and substitution

The Terms and Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

The Terms and Conditions of the Notes and the Trust Deed also provide that the Trustee may, without the consent of Noteholders, agree to (i) any modification of, or to the waiver or authorisation of any breach or proposed breach of, any of the provisions of Notes or (ii) determine without the consent of the Noteholders that any Event of Default or potential Event of Default shall not be treated as such or (iii) the substitution of another company as principal debtor under any Notes in place of the relevant Issuer, in the circumstances described in Condition 17 (*Meeting of Noteholders; Modification and Waiver; Substitution*) of the Terms and Conditions of the Notes.

Change of law

The conditions of the Notes are based on English law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of this base prospectus.

Notes where denominations involve integral multiples: definitive Notes

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in his account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be

printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

If definitive Notes are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

General Economic Conditions

The Group's revenues, financial condition and results of operations may be adversely impacted by an economic downturn in any of the markets in which the Group operates. The Offshore and Remote Sites sector is largely dependent on the oil and gas and extractive industries, and may be impacted by a specific downturn in these industries, while the Healthcare and Education sectors are typically more resilient in the event of economic downturn. The Sports and Leisure and Business & Industry sectors may have a greater risk profile during an economic downturn; although such conditions can create opportunities for contract wins as clients become more focused on cutting costs and look to outsourcing as an attractive alternative. The overall impact on the Group's performance of economic or industrial cycles that may affect any one region or country at a given time may be mitigated by the geographic spread of its businesses.

Eurozone Debt Crisis

If one or more countries in the eurozone was to default in its debt obligations and/or left the euro to re-establish its own national currency, or if European monetary union was to collapse, it is likely that there would be significant extended and generalised dislocation in the world's financial markets, with unpredictable and materially adverse consequences for all participants including the Group.

The secondary market generally

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes.

Exchange rate risks and exchange controls

The relevant Issuer, or, as the case may be, the Guarantor, will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency equivalent value of the principal payable on the Notes and (3) the Investor's Currency equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

Investment in Fixed Rate Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Credit ratings may not reflect all risks

One or more independent credit rating agencies may assign credit ratings to the Notes. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (1) Notes are legal investments for it, (2) Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Notes. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.

FINAL TERMS, PRICING SUPPLEMENT AND DRAWDOWN PROSPECTUSES

In this section the expression "necessary information" means, in relation to any Tranche of Notes, the information necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profits and losses and prospects of the Issuers and the Guarantor, as the case may be, and of the rights attaching to the Notes and the Guarantee, as the case may be. In relation to the different types of Notes which may be issued under the Programme by Compass PLC and Compass B.V., each Issuer and the Guarantor, as the case may be, have endeavoured to include in this Base Prospectus all of the necessary information except for information relating to the Notes which is not known at the date of this Base Prospectus and which can only be determined at the time of an individual issue of a Tranche of Notes.

Any information relating to the Notes which is not included in this Base Prospectus and which is required in order to complete the necessary information in relation to a Tranche of Notes will be contained either in the relevant Final Terms, Pricing Supplement or in a Drawdown Prospectus. Such information will be contained in the relevant Final Terms or Pricing Supplement unless any of such information constitutes a significant new factor relating to the information contained in this Base Prospectus in which case such information, together with all of the other necessary information in relation to the relevant series of Notes (other than Exempt Notes), may be contained in a Drawdown Prospectus.

For a Tranche of Notes which is the subject of Final Terms or a Pricing Supplement, those Final Terms or that Pricing Supplement will, for the purposes of that Tranche only, complete this Base Prospectus and must be read in conjunction with this Base Prospectus. The terms and conditions applicable to any particular Tranche of Notes which is the subject of Final Terms are the Conditions of the Notes as completed to the extent described in the relevant Final Terms and the terms and conditions applicable to any particular tranche of Notes which is the subject of a Pricing Supplement are the Conditions of the Notes as completed, modified or superseded by the relevant Pricing Supplement.

The terms and conditions applicable to any particular Tranche of Notes which is the subject of a Drawdown Prospectus will be the Conditions as supplemented, amended and/or replaced to the extent described in the relevant Pricing Supplement or Drawdown Prospectus. In the case of a Tranche of Notes which is the subject of a Pricing Supplement or Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Pricing Supplement or Drawdown Prospectus unless the context requires otherwise.

Each Drawdown Prospectus will be constituted either (1) by a single document containing the necessary information relating to Compass PLC or Compass B.V. and the relevant Notes or (2) by a registration document (the "**Registration Document**") containing the necessary information relating to Compass PLC or Compass B.V., a securities note (the "**Securities Note**") containing the necessary information relating to the relevant Notes and, if necessary, a summary note. In addition, if the Drawdown Prospectus is constituted by a Registration Document and a Securities Note, any significant new factor, material mistake or inaccuracy relating to the information included in the Registration Document which arises or is noted between the date of the Registration Document and the date of the Securities Note which is capable of affecting the assessment of the relevant Notes will be included in the Securities Note.

FORMS OF THE NOTES

Bearer Notes

Each Tranche of Notes in bearer form ("**Bearer Notes**") will initially be in the form of either a temporary global note in bearer form (the "**Temporary Global Note**"), without interest coupons, or a permanent global note in bearer form (the "**Permanent Global Note**"), without interest coupons, in each case as specified in the relevant Final Terms or, as the case may be, the relevant Pricing Supplement. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a "**Global Note**") which is not intended to be issued in new global note ("NGN") form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear Bank SA/NV ("**Euroclear**") and/or Clearstream Banking S.A. ("**Clearstream, Luxembourg**") and/or any other relevant clearing system, and each Global Note which is intended to be issued in NGN form, as specified in the relevant Final Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a common safekeeper for Euroclear and/or Clearstream, Luxembourg.

On 13 June 2006 the European Central Bank (the "**ECB**") announced that Notes in NGN form are in compliance with the "Standards for the use of EU securities settlement systems in ESCB credit operations" of the central banking system for the euro (the "**Eurosystem**"), provided that certain other criteria are fulfilled. At the same time the ECB also announced that arrangements for Notes in NGN form will be offered by Euroclear and Clearstream, Luxembourg as of 30 June 2006 and that debt securities in global bearer form issued through Euroclear and Clearstream, Luxembourg after 31 December 2006 will only be eligible as collateral for Eurosystem operations if the NGN form is used.

In the case of each Tranche of Bearer Notes, the relevant Final Terms or, as the case may be, the relevant Pricing Supplement will also specify whether United States Treasury Regulation §1.163-5(c)(2)(i)(C) (the "**TEFRA C Rules**") or United States Treasury Regulation §1.163-5(c)(2)(i)(D) (the "**TEFRA D Rules**") are applicable in relation to the Notes or that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Final Terms or, as the case may be, the relevant Pricing Supplement specifies the form of Notes as being "Temporary Global Note exchangeable for a Permanent Global Note", then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the relevant Issuer and/or the Guarantor, as the case may be, shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note, duly authenticated and, in the case of an NGN, effectuated, to the bearer of the Temporary Global Note or (in the case of any subsequent exchange) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Principal Paying Agent; and
- (ii) receipt by the Principal Paying Agent of a certificate or certificates of non-U.S. beneficial ownership,

within 7 days of the bearer requesting such exchange.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Final Terms or, as the case may be, the relevant Pricing Supplement specifies the form of Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specifies that the TEFRA C Rules are applicable or that neither the TEFRA C Rules nor the TEFRA D Rules are

applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole but not in part, for Bearer Notes in definitive form ("**Definitive Notes**") not earlier than 40 days after the issue date of the relevant Tranche of the Notes.

If the relevant Final Terms or, as the case may be, the relevant Pricing Supplement specifies the form of Notes as being "Temporary Global Note exchangeable for Definitive Notes" and also specifies that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Definitive Notes not earlier than 40 days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the relevant Issuer and/or the Guarantor, as the case may be, shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms or, as the case may be, the relevant Pricing Supplement), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Principal Paying Agent within 30 days of the bearer requesting such exchange.

Permanent Global Note exchangeable for Definitive Notes

If the relevant Final Terms or, as the case may be, the relevant Pricing Supplement specifies the form of Notes as being "Permanent Global Note exchangeable for Definitive Notes", then the Notes will initially be in the form of a Permanent Global Note which will only be exchangeable in whole, but not in part, for Definitive Notes:

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms or, as the case may be, the relevant Pricing Supplement; or
- (ii) if the relevant Final Terms or, as the case may be, the relevant Pricing Supplement specifies "in the limited circumstances described in the Permanent Global Note", then only if one of the following events occurs:
 - (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system permanently ceases its business without appointing a successor entity; or
 - (b) the relevant Issuer requests an exchange following a change in tax law that would be adverse to such Issuer but for the issuance of Definitive Notes; or
 - (c) any of the circumstances described in Condition 13 (*Events of Default*) occurs and is continuing.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the relevant Issuer and/or the Guarantor, as the case may be, shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Final Terms or, as the case may be, the relevant Pricing Supplement), in an aggregate principal amount equal to the principal amount of the Permanent Global Note to or to the order of the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Principal Paying Agent within 45 days of the bearer requesting such exchange.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Definitive Note will be endorsed on that Note and will consist of the terms and conditions set out under "Terms and Conditions of the Notes" below and the provisions of the relevant Final Terms or, as the case may be, the relevant Pricing Supplement which supplement, amend and/or replace those terms and conditions.

The terms and conditions applicable to any Note in global form will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "Summary of Provisions Relating to the Notes while in Global Form" below.

Legend concerning United States persons

In the case of any Tranche of Notes considered to be in bearer form for U.S. federal income tax purposes, the Notes in global form, the Notes in definitive form and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

"Any United States person (as defined in the Internal Revenue Code of the United States) who holds this obligation, directly or indirectly, will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code."

Registered Notes

Each Tranche of Notes in registered form ("**Registered Notes**") will be represented by either:

- (i) individual Note Certificates in registered form ("**Individual Note Certificates**"); or
- (ii) one or more global note certificates ("**Global Note Certificate(s)**"),

in each case as specified in the relevant Final Terms or, as the case may be, the relevant Pricing Supplement.

If the relevant Final Terms or, as the case may be, the relevant Pricing Supplement specifies the form of Notes as being "Individual Note Certificates", then the Notes will at all times be represented by Individual Note Certificates issued to each Noteholder in respect of their respective holdings. Each Global Note Certificate will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system and registered in the name of the common depositary (or its nominee) for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system.

Global Note Certificate exchangeable for Individual Note Certificates

If the relevant Final Terms or, as the case may be, the relevant Pricing Supplement specifies the form of Notes as being "Global Note Certificate exchangeable for Individual Note Certificates", then the Notes will initially be represented by one or more Global Note Certificates each of which will be exchangeable in whole, but not in part, for Individual Note Certificates:

- (i) on the expiry of such period of notice as may be specified in the relevant Final Terms or, as the case may be, the relevant Pricing Supplement; or
- (ii) if the relevant Final Terms or, as the case may be, the relevant Pricing Supplement specifies "in the limited circumstances described in the Global Note Certificate", then if either of the following events occurs:
 - (a) Euroclear, Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or has in fact done so and no alternative clearing system satisfactory to the Trustee is available; or
 - (b) any of the circumstances described in Condition 13 (*Events of Default*) occurs.

Whenever a Global Note Certificate is to be exchanged for Individual Note Certificates, each person having an interest in a Global Note Certificate must provide the Registrar (through the relevant clearing system) with such information as the relevant Issuer and the Registrar may require to complete and deliver Individual Note Certificates (including the name and address of each person in which the Notes represented by the Individual Note Certificates are to be registered and the principal amount of each such person's holding).

Whenever a Global Note Certificate is to be exchanged for Individual Note Certificates, the relevant Issuer and/or the Guarantor, as the case may be, shall procure that Individual Note Certificates will be issued in an aggregate principal amount equal to the principal amount of the Global Note Certificate within five business days of the delivery, by or on behalf of the registered holder of the Global Note Certificate to the Registrar of such information as is required to complete and deliver such Individual

Note Certificates against the surrender of the Global Note Certificate at the specified office of the Registrar.

Such exchange will be effected in accordance with the provisions of the Trust Deed and the Agency Agreement and the regulations concerning the transfer and registration of Notes scheduled to the Agency Agreement and, in particular, shall be effected without charge to any holder, but against such indemnity as the Registrar may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

Terms and Conditions applicable to the Notes

The terms and conditions applicable to any Individual Note Certificate will be endorsed on that Individual Note Certificate and will consist of the terms and conditions set out under "Terms and Conditions of the Notes" below and the provisions of the relevant Final Terms or, as the case may be, the relevant Pricing Supplement which supplement, amend and/or replace those terms and conditions.

The terms and conditions applicable to any Global Note or Global Note Certificate will differ from those terms and conditions which would apply to the Note were it in definitive form to the extent described under "Summary of Provisions Relating to the Notes while in Global Form" below.

Summary of Provisions relating to the Notes while in Global Form

Clearing System Accountholders

In relation to any Tranche of Notes represented by a Global Note, references in the Terms and Conditions of the Notes to "Noteholder" are references to the bearer of the relevant Global Note which, for so long as the Global Note is held by a depositary or a common depositary or, in the case of an NGN, a common safekeeper, for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary.

In relation to any Tranche of Notes represented by one or more Global Note Certificates, references in the Terms and Conditions of the Notes to "Noteholder" are references to the person in whose name the relevant Global Note Certificate is for the time being registered in the Register which is held by or on behalf of a depositary or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, will be that depositary or common depositary or a nominee for that depositary or common depositary.

Each of the persons shown in the records of Euroclear, Clearstream, Luxembourg and/or any other relevant clearing system as being entitled to an interest in a Global Note or a Global Note Certificate (each an "**Accountholder**") must look solely to Euroclear, Clearstream, Luxembourg and/or such other relevant clearing system (as the case may be) for such Accountholder's share of each payment made by the relevant Issuer or the Guarantor, as the case may be, to the holder of such Global Note or Global Note Certificate and in relation to all other rights arising under such Global Note or Global Note Certificate. The extent to which, and the manner in which, Accountholders may exercise any rights arising under a Global Note or Global Note Certificate will be determined by the respective rules and procedures of Euroclear and Clearstream, Luxembourg and any other relevant clearing system from time to time. For so long as the relevant Notes are represented by a Global Note or Global Note Certificate, Accountholders shall have no claim directly against the relevant Issuer or the Guarantor, as the case may be, in respect of payments due under the Notes and such obligations of the relevant Issuer or the Guarantor, as the case may be, will be discharged by payment to the holder of such Global Note or Global Note Certificate.

Transfers of Interests in Global Notes and Global Note Certificates

Transfers of interests in Global Notes and Global Note Certificates within Euroclear and Clearstream, Luxembourg or any other relevant clearing system will be in accordance with their respective rules and operating procedures. None of the Issuers, the Guarantor, as the case may be, the Trustee, the Registrar, the Dealers or the Agents will have any responsibility or liability for any aspect of the records of Euroclear and Clearstream, Luxembourg or any other relevant clearing system or any of their respective participants relating to payments made on account of beneficial ownership interests in a Global Note or Global Note Certificate or for maintaining, supervising or reviewing any of the records of Euroclear and Clearstream, Luxembourg or any other relevant clearing system or the records of their respective participants relating to such beneficial ownership interests.

The laws of some states of the United States require that certain persons receive individual certificates in respect of their holdings of Notes. Consequently, the ability to transfer interests in a Global Note Certificate to such persons will be limited. Because clearing systems only act on behalf of participants, who in turn act on behalf of indirect participants, the ability of a person having an interest in a Global Note Certificate to pledge such interest to persons or entities which do not participate in the relevant clearing systems, or otherwise take actions in respect of such interest, may be affected by the lack of an Individual Note Certificate representing such interest.

Subject to compliance with the transfer restrictions applicable to the Registered Notes described under "Transfer Restrictions", transfers Euroclear or Clearstream, Luxembourg accountholders will be effected by the relevant clearing systems in accordance with their respective rules and through action taken by the Registrar and the Principal Paying Agent.

For a further description of restrictions on the transfer of Notes, see "*Subscription and Sale*" and "*Transfer Restrictions*".

While a Global Note Certificate is lodged with Euroclear, Clearstream, Luxembourg or any relevant clearing system, Individual Note Certificates for the relevant Series of Notes will not be eligible for clearing and settlement through such clearing systems.

Conditions applicable to Global Notes and Global Note Certificates

Each Global Note and Global Note Certificate will contain provisions which modify the Terms and Conditions of the Notes as they apply to the Global Note or Global Note Certificate. The following is a summary of certain of those provisions:

On each occasion on which a payment of principal or interest is made in respect of the Global Note, the relevant Issuer, or the Guarantor, as the case may be, shall procure that payment is noted in a schedule thereto or, in respect of an NGN, the payment is entered pro rata in the records of Euroclear and Clearstream, Luxembourg.

Payment Business Day: Notwithstanding the definition of "Payment Business Day" in Condition 2(a) (*Definitions*), while all the Notes are represented by a Permanent Global Note (or by a Permanent Global Note and/or a Temporary Global Note) or a Global Note Certificate and the Permanent Global Note is (or the Permanent Global Note and/or the Temporary Global Note are), or the Global Note Certificate is deposited with a depositary or a common depositary for Euroclear and/or Clearstream, Luxembourg and/or any other relevant clearing system, "**Payment Business Day**" means:

Any indication that the Global Notes or Global Certificates are to be so held does not necessarily mean that the Notes of the relevant Tranche will be recognised as eligible collateral for Eurosystem monetary policy and intra-day credit operations by the Eurosystem either upon issue or at any times during their life as such recognition depends upon satisfaction of the Eurosystem eligibility criteria. The Common Safekeeper for NGNs will either be Euroclear or Clearstream, Luxembourg or another entity approved by Euroclear and Clearstream, Luxembourg, as indicated in the applicable Final Terms.

- (i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (ii) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
 - (A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) determine the arithmetic mean of such quotations; and
- (iv) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; **provided, however, that** if the Calculation Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Rate of Interest applicable to the Notes during such Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Notes in respect of a preceding Interest Period.

- (d) *ISDA Determination:* If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Notes for each Interest Period will be the sum of the Margin and the relevant ISDA Rate where "ISDA Rate" in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:
 - (i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
 - (ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and

- (e) *Maximum or Minimum Rate of Interest:* If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.
- (f) *Calculation of Interest Amount:* The Calculation Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each Interest Period, calculate the

Interest Amount payable in respect of each Note for such Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Note divided by the Calculation Amount. For this purpose a "sub-unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

- (g) *Calculation of other amounts:* If the relevant Final Terms specifies that any other amount is to be calculated by the Calculation Agent, the Calculation Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Calculation Agent in the manner specified in the relevant Final Terms.
- (h) *Publication:* The Calculation Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant Interest Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to the Paying Agents and each competent authority, stock exchange and/or quotation system (if any) by which the Notes have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and Interest Payment Date) in any event not later than the first day of the relevant Interest Period. Notice thereof shall also promptly be given to the Noteholders. The Calculation Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant Interest Period. If the Calculation Amount is less than the minimum Specified Denomination the Calculation Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination.
- (i) *Notifications etc:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Calculation Agent will (in the absence of manifest error) be binding on the Issuer and the Guarantor, as the case may be, the Paying Agents, the Noteholders and the Couponholders and (subject as aforesaid) no liability to the Issuer, or the Guarantor, as the case may be, the Paying Agents, the Noteholders and the Couponholders will attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

 - (i) the Reference Price; and
 - (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Note up to that day are received by or on behalf of the relevant Noteholder and (ii) the day which is seven days after the Principal Paying Agent has notified the Noteholders that it has received all sums due in respect of the Notes up to such seventh day (except to the extent that there is any subsequent default in payment).

provided, however, that no such notice of redemption shall be given earlier than:

Prior to the publication of any notice of redemption pursuant to this paragraph, the relevant Issuer or the Guarantor, as the case may be, shall deliver or procure that there is delivered to the Trustee (A) a certificate signed by two directors of such Issuer or the Guarantor, as the case may be, stating that such Issuer or the Guarantor, as the case may be, is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of such Issuer or the Guarantor, as the case may be, so to redeem have occurred and (B) an opinion of independent legal advisers of recognised standing to the effect that such Issuer or the Guarantor, as the case may be, has or will become obliged to pay such additional amounts as a result of such change or amendment.

The Trustee shall be entitled to accept such certificate and opinion as sufficient evidence of the satisfaction of the circumstances set out above, in which event they shall be conclusive and binding on the Noteholders.

Upon the expiry of any such notice as is referred to in this Condition 9(b), the relevant Issuer or the Guarantor, as the case may be, shall be bound to redeem the Notes in accordance with this Condition 9(b).

15. **Replacement of Notes and Coupons**

If any Note, Note Certificate or Coupon is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the Specified Office of the Principal Paying Agent, in the case of Bearer Notes, or the Registrar, in the case of Registered Notes (and, if the Notes are then admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent or Transfer Agent in any particular place, the Paying Agent or Transfer Agent having its Specified Office in the place required by such competent authority, stock exchange and/or quotation system), subject to all applicable laws and competent authority, stock exchange and/or quotation system requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence,

security, indemnity and otherwise as the Issuer or the Guarantor as the case may be, may reasonably require. Mutilated or defaced Notes, Note Certificates or Coupons must be surrendered before replacements will be issued.

16. **Trustee and Agents**

Under the Trust Deed, the Trustee is entitled to be indemnified and relieved from responsibility in certain circumstances and to be paid its costs and expenses in priority to the claims of the Noteholders. In addition, the Trustee is entitled to enter into business transactions with the Issuer or the Guarantor, as the case may be, and any entity relating to the Issuer or the Guarantor without accounting for any profit.

In the exercise of its powers and discretions under these Conditions and the Trust Deed, the Trustee will have regard to the interests of the Noteholders as a class and will not be responsible for any consequence for individual Holders of Notes as a result of such Holders being connected in any way with a particular territory or taxing jurisdiction.

In acting under the Agency Agreement and in connection with the Notes and the Coupons, the Agents act solely as agents of the Issuer and the Guarantor, as the case may be and (to the extent provided therein) the Trustee and do not assume any obligations towards or relationship of agency or trust for or with any of the Noteholders or Couponholders.

The initial Agents and their initial Specified Offices are listed below. The initial Calculation Agent (if any) is specified in the relevant Final Terms. The Issuer and the Guarantor, as the case may be, reserve the right (with the prior approval of the Trustee) at any time to vary or terminate the appointment of any Agent and to appoint a successor paying agent or registrar or Calculation Agent and additional or successor paying agents; **provided, however, that:**

- (i) the Issuer and the Guarantor, as the case may be, shall at all times maintain a paying agent and a registrar; and
- (ii) if a Calculation Agent is specified in the relevant Final Terms, the Issuer and the Guarantor, as the case may be, shall at all times maintain a Calculation Agent; and
- (iii) if and for so long as the Notes are admitted to listing, trading and/or quotation by any competent authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent and/or a Transfer Agent in any particular place, the Issuer and the Guarantor, as the case may be, shall maintain a Paying Agent and/or a Transfer Agent having its Specified Office in the place required by such competent authority, stock exchange and/or quotation system.

Notice of any change in any of the Agents or in their Specified Offices shall promptly be given to the Noteholders.

17. **Meetings of Noteholders; Modification and Waiver; Substitution**

- (a) *Meetings of Noteholders:* The Trust Deed contains provisions for convening meetings of Noteholders to consider matters relating to the Notes, including the modification of any provision of these Conditions. Any such modification may be made if sanctioned by an Extraordinary Resolution. Such a meeting may be convened by the Issuer, or in the case of the Guaranteed Notes, the Guarantor or by the Trustee and shall be convened by the Trustee upon the request in writing of Noteholders holding not less than five per cent. of the aggregate principal amount of the outstanding Notes. The quorum at any meeting convened to vote on an Extraordinary Resolution will be one or more Persons holding or representing not less than a clear majority of the aggregate principal amount of the outstanding Notes or, at any adjourned meeting, one or more Persons being or representing Noteholders whatever the principal amount of the Notes held or represented; **provided, however, that** Reserved Matters may only be sanctioned by an Extraordinary Resolution passed at a meeting of Noteholders at which one or more Persons holding or representing not less than two-thirds or, at any adjourned meeting, one-third of the aggregate principal amount of the outstanding Notes form a quorum. Any Extraordinary Resolution duly passed at any such meeting shall be binding on all the Noteholders and Couponholders, whether present or not.

In addition, a resolution in writing signed by or on behalf of all Noteholders who for the time being are entitled to receive notice of a meeting of Noteholders under the Trust Deed will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

- (b) *Modification and waiver:* The Trustee may, without the consent of the Noteholders, agree to any modification of these Conditions or the Trust Deed (other than in respect of a Reserved Matter) which is, in the opinion of the Trustee, proper to make if, in the opinion of the Trustee, such modification will not be materially prejudicial to the interests of Noteholders and to any modification of the Notes or the Trust Deed which is of a formal, minor or technical nature or is to correct a manifest error.

In addition, the Trustee may, without the consent of the Noteholders, authorise or waive any proposed breach or breach of the Notes or the Trust Deed (other than a proposed breach or breach relating to the subject of a Reserved Matter) if, in the opinion of the Trustee, the interests of the Noteholders will not be materially prejudiced thereby.

Unless the Trustee agrees otherwise, any such authorisation, waiver or modification shall be notified to the Noteholders in accordance with Condition 20 (*Notices*) as soon as practicable thereafter.

- (c) *Substitution:* The Trustee may, without the consent of the Noteholders, agree with the Issuer, to the substitution in place of the Issuer (or of any previous substitute under this Condition 17 (*Meeting of Noteholders; Modification and Waiver; Substitution*)) as the principal debtor under the Notes, the Coupons and the Trust Deed of a Subsidiary of the Issuer or (in the case of Guaranteed Notes) the Guarantor, subject to (a) the Notes being unconditionally and irrevocably guaranteed by Compass PLC, (b) the Trustee being satisfied that the interests of the Noteholders will not be materially prejudiced by the substitution and (c) certain other conditions set out in the Trust Deed being complied with.

18. **Enforcement**

The Trustee may at any time, at its discretion and without notice, institute such proceedings as it thinks fit to enforce its rights under the Trust Deed in respect of the Notes, but it shall not be bound to do so unless:

- (i) it has been so requested in writing by the Holders of at least one-fifth of the aggregate principal amount of the outstanding Notes or has been so directed by an Extraordinary Resolution; and
- (ii) it has been indemnified or provided with security to its satisfaction.

No Noteholder may proceed directly against the Issuer or, in the case of the Guaranteed Notes, the Guarantor unless the Trustee, having become bound to do so, fails to do so within a reasonable time and such failure is continuing.

19. **Further Issues**

The Issuer may from time to time, without the consent of the Noteholders and in accordance with the Trust Deed, create and issue (and, in the case of Guaranteed Notes, the Guarantor may guarantee) further notes having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest) so as to form a single series with the Notes. The Issuer may from time to time, with the consent of the Trustee, create and issue (and, in the case of Guaranteed Notes, the Guarantor may guarantee) other series of notes having the benefit of the Trust Deed.

20. **Notices**

- (a) *Bearer Notes:* Notices to the Holders of Bearer Notes shall be valid if published in a leading English language daily newspaper published in London (which is expected to be the *Financial Times*) or, if such publication is not practicable, in a leading English language daily newspaper

having general circulation in Europe. Any such notice shall be deemed to have been given on the date of first publication (or if required to be published in more than one newspaper, on the first date on which publication shall have been made in all the required newspapers). Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the Holders of Bearer Notes.

- (b) *Registered Notes:* Notices to the Holders of Registered Notes shall be sent to them by first class mail (or its equivalent) or (if posted to an overseas address) by airmail at their respective addresses on the Register or, if such publication is not practicable, in a leading English language daily newspaper having general circulation in Europe. Any such notice shall be deemed to have been given on the fourth day after the date of mailing.

21. **Currency Indemnity**

The Issuer and in the case of the Guaranteed Notes, the Guarantor, shall indemnify the Trustee, the Agents, every Appointee, the Noteholders and the Couponholders and keep them indemnified against:

- (a) any Liability incurred by any of them arising from the non-payment by the Issuer or, in the case of the Guaranteed Notes, the Guarantor, of any amount due to the Trustee, the Agents or the holders of the Notes and the relative Couponholders under the Trust Deed by reason of any variation in the rates of exchange between those used for the purposes of calculating the amount due under a judgment or order in respect thereof and those prevailing at the date of actual payment by the Issuer or the Guarantor, as the case may be; and
- (b) any deficiency arising or resulting from any variation in rates of exchange between (i) the date as of which the local currency equivalent of the amounts due or contingently due under the Trust Deed is calculated for the purposes of any bankruptcy, insolvency or liquidation of the Issuer or the Guarantor, as the case may be, and (ii) the final date for ascertaining the amount of claims in such bankruptcy, insolvency or liquidation. The amount of such deficiency shall be deemed not to be reduced by any variation in rates of exchange occurring between the said final date and the date of any distribution of assets in connection with any such bankruptcy, insolvency or liquidation.

The above indemnities constitute separate and independent obligations of the Issuer and/or the Guarantor, as the case may be.

22. **Rounding**

For the purposes of any calculations referred to in these Conditions (unless otherwise specified in these Conditions or the relevant Final Terms), (a) all percentages resulting from such calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with 0.000005 per cent. being rounded up to 0.00001 per cent.), (b) all United States dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one half cent being rounded up), (c) all Japanese Yen amounts used in or resulting from such calculations will be rounded downwards to the next lower whole Japanese Yen amount, and (d) all amounts denominated in any other currency used in or resulting from such calculations will be rounded to the nearest two decimal places in such currency, with 0.005 being rounded upwards.

23. **Governing Law and Jurisdiction**

- (a) *Governing law:* The Notes and the Trust Deed and all non-contractual obligations arising out of or in connection with the Notes and the Trust Deed are governed by English law.
- (b) *Jurisdiction:* The Issuer and, in the case of the Guaranteed Notes, the Guarantor has in the Trust Deed (i) agreed that the courts of England shall have exclusive jurisdiction to settle any dispute (a "**Dispute**") arising out of or in connection with the Notes or the Trust Deed (including a dispute relating to any non-contractual obligation arising out of or in connection with the Notes or the Trust Deed) and (ii) agreed that those courts are the most appropriate and convenient courts to settle any Dispute and, accordingly, that it will not argue that any other courts are more appropriate or convenient. The Trust Deed also states that nothing contained in the Trust Deed

prevents the Trustee or any of the Noteholders from taking proceedings relating to a Dispute ("**Proceedings**") in any other courts with jurisdiction and that, to the extent allowed by law, the Trustee or any of the Noteholders may take concurrent Proceedings in any number of jurisdictions.

FORM OF FINAL TERMS

Set out below is the form of Final Terms which will be completed for each Tranche of Notes which are not Exempt Notes issued under the Programme.

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS] – The Notes are not intended, [from 1 January 2018,] to be offered, sold or otherwise made available to and[, with effect from such date,] should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("**MiFID II**"); (ii) a customer within the meaning of Directive 2002/92/EC ("**IMD**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the "**Prospectus Directive**"). Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.]

PART A – CONTRACTUAL TERMS

The Prospectus referred to below (as completed by these Final Terms) has been prepared on the basis that any offer of Notes in any Member State of the European Economic Area which has implemented the Directive 2003/71/EC (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of the Notes. Neither the Issuer[, the Guarantor] nor any Dealer have authorised, nor do they authorise, the making of any offer of Notes in circumstances in which an obligation arises for the Issuer[, the Guarantor] or any Dealer to publish or supplement a prospectus for such offer.

PART A – CONTRACTUAL TERMS

The Prospectus referred to below (as completed by these Final Terms) has been prepared on the basis that any offer of Notes in any Member State of the European Economic Area which has implemented the Directive 2003/71/EC (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of the Notes. Accordingly any person making or intending to make an offer in that Relevant Member State of the Notes may only do so in circumstances in which no obligation arises for the Issuer[, or the Guarantor] or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive (as defined below) or supplement a prospectus pursuant to Article 16 of the Prospectus Directive, in each case, in relation to such offer. Neither the Issuer[, the Guarantor] nor any Dealer have authorised, nor do they authorise, the making of any offer of Notes in circumstances in which an obligation arises for the Issuer[, the Guarantor] or any Dealer to publish or supplement a prospectus for such offer.

This document constitutes the Pricing Supplement of the Notes described herein. This document must be read in conjunction with the Base Prospectus dated 31 May 2017 [and the supplement(s) to it dated [•]] (the "**Base Prospectus**"). This Pricing Supplement contains the final terms of the Notes and must be read in conjunction with such Base Prospectus.

Full information on the Issuer[, the Guarantor] and the offer of the Notes is only available on the basis of the combination of this Pricing Supplement and the Base Prospectus. Copies of the Base Prospectus [and the supplemental Base Prospectus(es)] may be obtained during normal business hours from the registered

office of the Issuer[, the Guarantor] and from the specified office of the Principal Paying Agent in London.

(The following alternative language applies if the first tranche of an issue which is being increased was issued under a base prospectus with an earlier date and either (1) the Notes which are the subject of the Final Terms are not being (a) offered to the public in a member state (other than pursuant to one or more of the exemptions set out in Article 3.2 of the Prospectus Directive) or (b) admitted to trading on a regulated market in a member state or (c) admitted to listing or (2) the Conditions (as defined in the next paragraph) do not contain, by comparison with the Base Prospectus, any "significant new factor" within the meaning of Article 16.1 of the Prospectus Directive. If neither (1) nor (2) applies the Issuer will need to consider effecting the issue by means of a supplement to the Base Prospectus or a standalone prospectus rather than by Final Terms.)

DESCRIPTION OF COMPASS GROUP PLC

Information about Compass Group PLC

General

Compass Group PLC ("**Compass PLC**" and, together with Compass B.V., each an "**Issuer**") is the holding company of the Compass Group of companies (the "**Compass Group**" or the "**Group**"), a foodservice and support services organisation, with annual revenues of £19.6 billion (in the financial year ending 30 September 2016).

Compass PLC was incorporated on 29 September 2000 in the United Kingdom and operates under English law. It was initially registered under the name of Compass Demerger Limited prior to changing its name to Compass Group PLC and re-registering as a public limited company (with the registered number 4083914) under the Companies Act 1985 on 30 November 2000. Compass PLC was listed on the London Stock Exchange on 2 February 2001.

The registered office of Compass PLC is Compass House, Guildford Street, Chertsey, Surrey KT16 9BQ. The telephone number of Compass PLC's registered office is +44 (0)1932 573 000.

History

The origins of Compass PLC's business activities can be traced back to Factory Canteens Limited, which was founded in the United Kingdom in 1941 to feed munitions workers. The business was acquired by Grand Metropolitan in the late 1960s and a management buy-out from Grand Metropolitan followed in 1987, with the then Compass Group PLC ("**Former Compass Group**") listing on the London Stock Exchange in December 1988. This company became a member of the FTSE100 in 1998.

On 27 July 2000, Former Compass Group and Granada Group PLC ("**Granada**") merged to create Granada Compass PLC (the "**Merger**"). Following the Merger, in February 2001 the hospitality and media businesses of Granada Compass PLC were separated by means of a demerger (the "**Demerger**").

The Demerger created two groups with separate listings on the London Stock Exchange:

- Granada Compass PLC (renamed Granada PLC) – a major independent media group; and
- Compass Group - one of the world's leading hospitality groups.

The Compass Group has since grown organically and through acquisitions to become a foodservice and support services company that today employs in excess of 500,000 people, and serves over 5 billion meals a year to clients and consumers in over 50 countries across the world.

Business Overview

Foodservice is the Group's focus and core business. The Group has a globally diversified business and the Group seeks to achieve scale in the countries in which it operates to help drive efficiencies. The Group's global spread enables it both to benefit from the global trend to outsourcing and to serve its multinational clients. The Group segments the market and creates sectors to develop customised dining solutions that meet the requirements of a growing range of clients and consumers and continues to focus on cost efficiencies to drive margin and re-investment of free cash flow to drive growth. In tandem with its concentration on organic growth the Group will continue to look to make selective infill acquisitions with a preference for small to medium sized opportunities.

Market Sectors

The Group provides food service and support services to clients and consumers, be they at work, at schools and universities, in hospitals and senior living communities, at sporting and cultural events, or in remote environments. The Group segments its markets into sectors, namely; Business & Industry, Education, Healthcare and Senior Living, Sports & Leisure and Defence and Offshore & Remote. The Group recognises that each sector has specific requirements, and assigns specialists to drive tailor made solutions and operating efficiency. The Group has developed specialised sector specific operating businesses, to focus on the individual requirements of its clients in each of the sectors below:

Business & Industry

In this sector the Group provides a choice of quality, nutritious and well balanced food for its clients' employees throughout the working day, be they in offices, at distribution centres, at factories or in any other work environment. The Group works closely with clients to define and deliver the most appropriate solution – from restaurants and café style outlets to coffee bars and vending.

Also included within this sector is "Fine Dining", where the Group works with renowned chefs to bring their expertise to customers in executive dining rooms, and in providing hospitality for social and cultural events.

In addition, where clients seek broader service offerings, the Compass PLC Service Framework enables us to deliver a range of support services on an international scale.

Sector brands include: Eurest, Eurest Services, Restaurant Associates, Bon Appetit, and Flik.

Healthcare & Seniors

In this sector the Group provides foodservices to patients, staff and visitors in the public and private sectors to hospitals, nursing and residential homes, together with home meal delivery services. The Group provides quality foodservice at some of the world's most prestigious sporting and leisure venues, visitor attractions and social events. In addition, the Group delivers the specialist in-house expertise and resources to provide a single source for the marketing and management of corporate hospitality packages.

Sector brand: Levy Restaurants.

Defence, Offshore & Remote Sites

In the remote and offshore sectors the Group delivers food and support services to major companies in the oil, gas, mining and construction industries operating in some of the most demanding environments in the world. The Group also provides food service, housekeeping, cleaning and infrastructure maintenance services for clients' accommodation centres in remote locations.

In the defence sector, the Group operates outside of areas of conflict and delivers meals and rations to troops at base camp and while training in the field, logistical and hospitality services to military and civilian personnel, as well as light maintenance services for military camps.

Sector brand : ESS Support Services Worldwide.

Consumer Brands

In addition to its client facing sector brands, the Group creates, maintains and develops a portfolio of its own consumer facing brands. To complement the Group's in-house brands in certain markets and

countries, the Group leverages its scale to operate major "high-street" consumer brands (for example Marks & Spencer, Subway, Costcutter, Costa and Starbucks) from its clients' premises. These are normally operated on a franchise basis, which enables the Group to combine its market expertise and service skills with the consumer awareness of such brands.

Clients

The Group caters to a large and diverse client base, including a number of global and multinational companies such as Microsoft, Google, Shell, Chevron and IBM.

Contracts with clients are principally based on a cost-plus, profit and loss or fixed price model, with revenues distributed broadly equally between the three models. Input cost increases are passed on to clients under the cost-plus model and, where permitted by contractual indexation clauses, under the fixed price model. The profit and loss model allows the Group to seek to renegotiate prices, subject to competitive pressures, in the event of an increase in input costs.

Geographical Diversification

The Group has a globally diversified business that operates in around 50 countries around the world. Based on internal estimates the Group believes that it is the contract foodservice market leader in the United States, the United Kingdom, Germany, Turkey and Brazil and that it is either the second or third largest operator in Canada, Australia, France and Spain.

The Group's operations are managed on a country by country basis, and it has reported in its consolidated financial statements (including in the audited consolidated financial statements for the year ended 30 September 2016) through three regions: (i) North America; (ii) Europe and (iii) Rest of World.

Based on the twelve months ended 30 September 2016, North America was the Group's largest region accounting for approximately 56 per cent of revenue, followed by Europe with approximately 28 per cent and Rest of World with approximately 16 per cent.

Management and Performance ("MAP") programme

In 2006, the Group launched its Management and Performance ("**MAP**") programme. MAP is a simple, but clearly defined Group operating framework. It focuses on five key value drivers, enabling the businesses to deliver disciplined, profitable growth with the focus more on organic growth and like for like growth, as well as cost control.

The five key value drivers are:

Client Sales and Marketing (MAP 1): delivering profitable growth from existing and new clients and developing the Group's penetration into chosen markets. MAP 1 targets tighter contracts and sharper contract evaluation and addresses the drive for like-for-like growth through client pricing strategies and growing client volumes (e.g. by providing additional services such as cleaning, reception and security).

Consumer Sales and Marketing (MAP 2): driving growth in consumer volume and spending through innovation, pricing and retail skills. MAP 2 focuses on developing the Group's retail philosophy in order to increase participation and spend per head (e.g. extending offers to include breakfast and 'Grab & Go' concepts).

Cost of Food (MAP 3): buying the optimal quality and range of food at the lowest cost to meet the needs of customers, with the most efficient distribution and in unit preparation. MAP 3 addresses cost efficiencies through a systematic approach to menu planning, professional purchasing techniques and supply chain, and unit processes.

Unit Costs (MAP 4): delivering the right level of service in the most efficient way, focusing on labour productivity and controlling labour and other in unit costs.

Above Unit Overheads (MAP 5): creating a simpler but highly effective management structure with fewer layers and less bureaucracy.

The MAP framework has been highly successful in delivering and improving financial performance.

Competitive position

Based on internal calculations the size of the global foodservice market is estimated to be approximately £200 billion, and less than half of this market is estimated to be outsourced. It is a highly fragmented market with relatively low contractor penetration and only a few truly global participants. The aggregate total revenues based on the latest published information of the largest four foodservice providers (including Compass Group, Sodexo, Elior and Aramark) are estimated to represent approximately 20 per cent of the total estimated global foodservice market. Although Compass Group's total revenues are the largest of the principal operators they represent approximately only 8 per cent of the estimated global foodservice market. The Group's management estimates that the level of outsourcing penetration has increased over recent years as organisations, particularly in government and industry, continuously review their cost bases, quality of in-house offering and service and choose to outsource foodservice functions. It is estimated by Compass Group that its support services market opportunity is worth approximately £200 billion and that this market currently has a slightly higher level of outsourcing penetration than the foodservice market. The support and multi services market is complex and there are significant differences in client buying behaviour across countries, sectors and sub sectors. The Group's approach is therefore low risk and incremental, with strategies developed on a country by country basis, to build its capabilities organically, supplemented by infill acquisitions.

Recent developments

Compass Group's organic revenue growth was 5 per cent in the year ended 30 September 2016 and was 3.6 per cent. for the six month period ending 31 March 2017.

During the year ended 30 September 2015, 30,086,546 ordinary shares of 10 5/8 pence each of Compass PLC were purchased for a consideration of £328 million (including expenses) to complete the £500 million share buyback programme announced on 27 November 2013. Of these, 9,552,807 shares were held as Treasury shares.

During the year ended 30 September 2016, 8,671,579 ordinary shares of 10 5/8 pence each of Compass PLC were repurchased for a consideration of approximately £100 million (including expenses). Of these, 6,560,656 shares were held as treasury shares and the remaining 2,110,923 shares were cancelled. From 1 October 2016 to 31 March 2017, 1,310,489 ordinary shares of 10 5/8 pence each of Compass PLC were repurchased for a consideration of approximately £18.3 million (including expenses), and subsequently cancelled. Shares held in treasury are not eligible to participate in dividends and do not carry any voting rights.

On 10 May 2017, Compass PLC announced that it proposes, subject to shareholder approval, to return to shareholders 61 pence per existing ordinary share, which is equivalent to approximately £1 billion in aggregate, by way of a special dividend (the "**Special Dividend**"). The Special Dividend will be accompanied by a consolidation of the existing ordinary shares in the ratio of 25 new ordinary shares for every 26 existing ordinary shares held (the "**Share Consolidation**" and together with the Special Dividend, the "**Shareholder Return**").

The Shareholder Return will be considered by the shareholders of Compass PLC at a general meeting to be held on 7 June 2017 and, subject to approval by the shareholders, the Share Consolidation is expected to be implemented at 6.00pm on 26 June 2017 with the Special Dividend paid to shareholders on 17 July 2017.

Compass PLC has entered into a new £1 billion committed bank facility (the "**Bridging Facility**") to ensure that sufficient funds are available for the Shareholder Return. Compass PLC's current intention is to fund the Shareholder Return with longer dated debt in the bank and capital markets in due course, and to cancel the Bridging Facility on receipt of the required funds. If drawn, the Bridging Facility will mature in December 2018.

Litigation

On 21 October 2005, Compass PLC announced that it had instructed Freshfields Bruckhaus Deringer LLP to conduct an investigation into the relationships between Eurest Support Services ("ESS") (a member of the Group), IHC Services Inc. ("IHC") and the United Nations (the "UN"). Ernst & Young LLP assisted Freshfields Bruckhaus Deringer LLP in this investigation. On 1 February 2006, it was announced that the investigation had concluded.

The investigation established serious irregularities in connection with contracts awarded to ESS by the UN. The work undertaken by Freshfields Bruckhaus Deringer LLP and Ernst & Young LLP gave no reason to believe that these issues extended beyond a few individuals within ESS to other parts of ESS or the wider Compass Group of companies.

The Group settled all outstanding civil litigation against it, in relation to this matter, in October 2006, but litigation continues between competitors of ESS, IHC and other parties involved in UN procurement.

IHC's relationship with the UN and ESS was part of a wider investigation into UN procurement activity being conducted by the United States Attorney's Office for the Southern District of New York, and with which the Group co-operated fully. The current status of that investigation is uncertain and a matter for the US authorities. Those investigators could have had access to sources unavailable to the Group, Freshfields Bruckhaus Deringer LLP or Ernst & Young LLP, and further information may yet emerge which is inconsistent with, or additional to, the findings of the Freshfields Bruckhaus Deringer LLP

investigation, which could have an adverse impact on the Group. The Group has however not been contacted by, or received further requests for information from, the United States Attorney's Office for the Southern District of New York in connection with these matters since January 2006. The Group has cooperated fully with the UN through-out.

The Group is also involved in various other legal proceedings incidental to the nature of its business and maintains insurance cover to reduce financial risk associated with claims related to these proceedings. Where appropriate, provisions are made to cover any potential uninsured losses. In addition, the Group is subject to periodic tax audits and challenges with/by various fiscal authorities covering corporate, employee and sales taxes in the various jurisdictions in which it operates. None of these are currently expected to have a material impact on the Group's financial position. Although it is not possible to predict the outcome or quantify the financial effect of these proceedings or any claim against the Group related thereto, in the opinion of the directors, any uninsured losses resulting from the ultimate resolution of these matters will not have a material effect on the financial position of the Group.

Material Contracts

The Compass Group has not entered into any material contracts in areas outside of its ordinary course of business which could result in any member of the Compass Group being under an obligation or an entitlement that is material to Compass PLC's ability to meet its obligations to holders of the Notes issued under the Programme, or, as the case may be, its obligations under the Guarantee.

ALTERNATIVE PERFORMANCE MEASURES

Compass Group uses adjusted figures and underlying growth rates which are not defined by generally accepted accounting principles such as IFRS. Adjusted figures and underlying growth rates are presented as additional performance measures used by management, as they provide relevant information in assessing Compass Group's performance, position and cash flows. Compass Group believes that these measures enable investors to more clearly track the core operational performance of Compass Group, by separating out items of income or expenditure relating to acquisitions, disposals, capital items and excluding currency translation effects, while providing investors with a clear basis for assessing Compass Group's ability to raise debt and invest in new business opportunities. Compass Group's management uses these financial measures, along with IFRS financial measures, in evaluating the operating performance of Compass Group as a whole and the individual business segments. Adjusted and underlying financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with IFRS. The measures may not be directly comparable to similarly reported measures by other companies.

The adjusted financial measures used are:

TAXATION

United Kingdom Taxation

A Introduction

The following is a summary of the United Kingdom withholding taxation treatment at the date hereof in relation to payments of principal and interest in respect of the Notes and the Guarantee of the Notes. It is based on current law and the practice of Her Majesty's Revenue and Customs ("**HMRC**"), which may be subject to change, sometimes with retrospective effect. The comments do not deal with other United Kingdom tax aspects of acquiring, holding or disposing of Notes. The comments relate only to the position of persons who are absolute beneficial owners of the Notes and Coupons and may not apply to certain classes of persons such as dealers or certain professional investors or persons connected with either of the Issuers and/or the Guarantor. They assume there will be no substitution of either of the Issuers and/or the Guarantor and do not consider the tax consequences of any such substitution.

Prospective Noteholders should be aware that the particular terms of issue of any series of Notes as specified in the relevant Final Terms may affect the tax treatment of that and other series of Notes. The following is a general guide for information purposes and should be treated with appropriate caution. It is not intended as tax advice and it does not purport to describe all of the tax considerations that may be relevant to a prospective Noteholder. Noteholders who are in any doubt as to their tax position should consult their professional advisers. Noteholders who may be liable to taxation in jurisdictions other than the United Kingdom in respect of their acquisition, holding or disposal of the Notes or in respect of the Guarantee of the Notes are particularly advised to consult their professional advisers as to whether they are so liable (and if so under the laws of which jurisdictions), since the following comments relate only to certain United Kingdom taxation aspects of payments in respect of the Notes and/or the Guarantee of the Notes. In particular, Noteholders should be aware that they may be liable to taxation under the laws of other jurisdictions in relation to payments in respect of the Notes and/or the Guarantee of the Notes even if such payments may be made without withholding or deduction for or on account of taxation under the laws of the United Kingdom.

B United Kingdom Withholding Tax on United Kingdom Source Interest

The Notes issued which carry a right to interest will constitute "quoted Eurobonds" within the meaning of section 987 of the Income and Tax Act 2007 (the "**Act**") provided they are and continue to be listed on a recognised stock exchange within the meaning of section 1005 of the Act. Whilst such Notes are and continue to be quoted Eurobonds, payments of interest on these Notes may be made without withholding or deduction for or on account of United Kingdom income tax.

Securities will be "listed on a recognised stock exchange" for this purpose if they are admitted to trading on an exchange designated as a recognised stock exchange by an order made by the Commissioners for HMRC and either they are included in the United Kingdom official list (within the meaning of Part 6 of the Financial Services and Markets Act 2000) or they are officially listed, in accordance with provisions corresponding to those generally applicable in European Economic Area states, in a country outside the United Kingdom in which there is a recognised stock exchange.

The London Stock Exchange is a recognised stock exchange, and accordingly the Notes that have a United Kingdom source will constitute quoted Eurobonds provided they are and continue to be included in the United Kingdom official list and admitted to trading on the Regulated Market of that exchange. In all cases falling outside the exemption described above, interest on the Notes may fall to be paid under deduction of United Kingdom income tax at the basic rate (currently 20 per cent) subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty, or to any other relief or exemption which may apply (for example, in respect of payments to Noteholders which the relevant Issuer reasonably believes are either a company resident in the United Kingdom, or a company not resident in the United Kingdom carrying on a trade in the United Kingdom through a permanent establishment which brings into account the interest in computing its United Kingdom taxable profits, or fall within various categories enjoying a special tax status (including charities and pension funds), or are partnerships consisting of such persons (unless HMRC directs otherwise)). However, this withholding will not apply if the relevant interest is paid on Notes with a maturity date of less than one year from the date of issue and which are not issued under arrangements the effect of which is to render such Notes part of a borrowing with a total term of a year or more.

The above description of the United Kingdom withholding tax position assumes that there will be no substitution of an Issuer pursuant to Condition 17(c) of the Notes or otherwise and does not consider the tax consequences of any such substitution.

C Payments by Guarantor

Depending on the correct legal analysis of payments made by the Guarantor as a matter of United Kingdom tax law, it is possible that payments by the Guarantor would be subject to withholding on account of United Kingdom tax, subject to any applicable exemptions or reliefs (and noting that not all of the exemptions and reliefs set out above would necessarily be applicable).

D Other Rules Relating to United Kingdom Withholding Tax

1. Where interest has been paid under deduction of United Kingdom income tax, Noteholders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted if there is an appropriate provision in any applicable double taxation treaty.
2. The references to "interest" in A and B above mean "interest" as understood in United Kingdom tax law and in particular any premium element of the redemption amount of any Notes redeemable at a premium may constitute a payment of interest subject to the withholding tax provisions discussed above. In certain cases, the same could be true for amounts of discount where Notes are issued at a discount. The statements in A and B above do not take any account of any different definitions of "interest" or "principal" which may prevail under any other law or which may be created by the terms and conditions of the Notes or any related documentation.
3. Where a payment on a Note does not constitute (or is not treated as) interest for United Kingdom tax purposes, and the payment has a United Kingdom source, it would potentially be subject to United Kingdom withholding tax if, for example, it constitutes (or is treated as) an annual payment or a manufactured payment for United Kingdom tax purposes (which will be determined by, amongst other things, the terms and conditions specified by the Final Terms of the Note). In such a case, the payment may fall to be made under deduction of United Kingdom income tax (the rate of withholding depending on the nature of the payment), subject to such relief as may be available following a direction from HMRC pursuant to the provisions of any applicable double taxation treaty, or to any other exemption which may apply.

The Netherlands Taxation

A Introduction

The following is a summary of Dutch withholding taxation treatment at the date hereof in relation to payments of principal and interest in respect of the Notes. It is based on the laws and practice in force as of the date of this Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could have retroactive effect. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to the Notes, and in particular, the comments do not deal with Netherlands tax aspects of acquiring, holding or disposing of Notes or Coupons, and do not purport to deal with the tax consequences applicable to all categories of investors, some of which may be subject to special rules.

Where the summary refers to "the Netherlands" or "Dutch" it refers only to the European part of the Kingdom of the Netherlands.

Investors should consult their professional advisers on the tax consequences of their acquiring, holding and disposing of Notes or Coupons.

B Withholding Tax

All payments made by the Issuer of interest and principal and all payments made by the Guarantor under the Notes can be made free of withholding or deduction of any taxes of whatever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority thereof or therein.

FATCA

Pursuant to certain provisions of the U.S. Internal Revenue Code of 1986, commonly known as FATCA, a "**foreign financial institution**" may be required to withhold on certain payments it makes ("**foreign passthru payments**") to persons that fail to meet certain certification, reporting, or related requirements. A number of jurisdictions (including the United Kingdom and the Netherlands) have entered into, or have agreed in substance to, intergovernmental agreements with the United States to implement FATCA ("**IGAs**"), which modify the way in which FATCA applies in their jurisdictions. Under the provisions of IGAs as currently in effect, a foreign financial institution in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA from payments that it makes. Certain aspects of the application of the FATCA provisions and IGAs to instruments such as the Notes, including whether withholding would ever be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, are uncertain and may be subject to change. Even if withholding would be required pursuant to FATCA or an IGA with respect to payments on instruments such as the Notes, such withholding would not apply prior to 1 January 2019. Holders should consult their own tax advisors regarding how these rules may apply to their investment in the Notes. In the event any withholding would be required pursuant to FATCA or an IGA with respect to payments on the Notes, no person will be required to pay additional amounts as a result of the withholding.

The Proposed Financial Transactions Tax ("FTT")

On 14 February 2013, the European Commission published a proposal (the "**Commission's Proposal**") for a directive for a common FTT in Belgium, Germany, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (each, other than Estonia, a "**participating Member State**"). However, Estonia has since ceased to participate. The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Notes (including secondary market transactions) in certain circumstances. The issuance and subscription of Notes should, however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Notes where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between participating Member States. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU Member States may decide to participate.

Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

SUBSCRIPTION AND SALE

Notes may be sold from time to time by the Issuers to Citigroup Global Markets Limited (as "**Permanent Dealer**" and together with any new dealers, the "**Dealers**"). The arrangements under which Notes may from time to time be agreed to be sold by the Issuers to, and purchased by, Dealers are set out in an amended and restated Dealer Agreement dated 31 May 2017 (as further amended or supplemented from time to time, the "**Dealer Agreement**") and made between the Issuers and the Dealers. Any such agreement will, *inter alia*, make provision for the form and terms and conditions of the relevant Notes, the price at which such Notes will be purchased by the Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuers in respect of such purchase. The Dealer Agreement makes provision for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other Dealers either generally in respect of the Programme or in relation to a particular Tranche of Notes.

United States of America: *Regulation S Category 2; TEFRA D or TEFRA C as specified in the relevant Final Terms or neither if TEFRA is specified as not applicable in the relevant Final Terms.*

The Notes have not been, and will not be, registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States and may not be offered, sold or (in the case of Bearer Notes) delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S) except in certain transactions exempt from the registration requirements of the Securities Act.

The Bearer Notes are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code and regulations thereunder.

Each Dealer has agreed, and each further Dealer appointed under the Programme will be required to agree, that, except as permitted by the Dealer Agreement, it will not offer, sell or deliver Notes, (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of the Notes comprising the relevant Tranche, as certified to the Principal Paying Agent or the relevant Issuer by such Dealer (or, in the case of a sale of a Tranche of Notes to or through more than one Dealer, by each of such Dealers as to the Notes of such Tranche purchased by or through it, in which case the Principal Paying Agent or the relevant Issuer shall notify each such Dealer when all such Dealers have so certified) within the United States or to, or for the account or benefit of, U.S. persons and such Dealer will have sent to each dealer to which it sells Notes during the distribution compliance period relating thereto (as defined in Regulation S), a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons.

In addition, until 40 days after the commencement of the offering of Notes comprising any Tranche, any offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an exemption from registration under the Securities Act.

Prohibition of Sales to EEA Retail Investors

From 1 January 2018, unless the Final Terms (or Pricing Supplement, as the case may be) in respect of any Notes specifies the "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Notes which are the subject of the offering contemplated by this Prospectus as completed by the Final Terms (or Pricing Supplement, as the case may be) in relation thereto to any retail investor in the European Economic Area. For the purposes of this provision:

- (a) the expression "retail investor" means a person who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or

- (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the "**Insurance Mediation Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the "**Prospectus Directive**"); and
- (b) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes.

Prior to 1 January 2018, and from that date if the Final Terms (or Pricing Supplement, as the case may be) in respect of any Notes specifies "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Dealer has represented and agreed in relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") and each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree, that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the "**Relevant Implementation Date**") it has not made and will not make an offer of Notes which are the subject of the offering contemplated by the Prospectus as completed by the Final Terms in relation thereto or, in the case of Exempt Notes, as completed, amended and/or replaced by the Pricing Supplement in relation thereto (or are the subject of the offering contemplated by a Drawdown Prospectus, as the case may be) to the public in that Relevant Member State except that it may, with effect from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (a) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (b) at any time to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the relevant Dealer or Dealers nominated by the relevant Issuer for any such offer; or
- (c) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive.

provided that no such offer of Notes referred to in (a) to (c) above shall require the relevant Issuer, the Guarantor as the case may be, or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an "**offer of Notes to the public**" in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State and the expression "**Prospectus Directive**" means Directive 2003/71/EC (as amended, including by Directive 2010/73/EU), and includes any relevant implementing measure in the Relevant Member State.

Selling Restrictions Addressing Additional United Kingdom Securities Laws

Each Dealer has represented, warranted and agreed, and each further Dealer appointed under the Programme will be required to represent, warrant and agree that:

- (a) **No deposit-taking:** in relation to any Notes having a maturity of less than one year:
 - (i) it is a person whose ordinary activities involve it in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of its business; and
 - (ii) it has not offered or sold and will not offer or sell any Notes other than to persons:
 - (A) whose ordinary activities involve them in acquiring, holding, managing or disposing of investments (as principal or agent) for the purposes of their businesses; or

- (B) who it is reasonable to expect will acquire, hold, manage or dispose of investments (as principal or agent) for the purposes of their businesses,

where the issue of the Notes would otherwise constitute a contravention of Section 19 of the FSMA by the relevant Issuer;

- (b) **Financial promotion:** it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Notes in circumstances in which section 21(1) of the FSMA does not apply to the relevant Issuer or the Guarantor, as the case may be; and
- (c) **General compliance:** it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to any Notes in, from or otherwise involving the United Kingdom.

Japan

The Notes have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended) (the "FIEA"). Accordingly, each Dealer has represented and undertaken, and each further Dealer appointed under the Programme will be required to represent and undertake, that it has not, directly or indirectly, offered or sold and will not offer or sell any Notes directly or indirectly, in Japan or to, or for the benefit of, any resident of Japan (which term as used herein means any person resident in Japan, including any corporation or other entity organised under the laws of Japan) or to others for re-offering or resale, directly or indirectly, in Japan or to or for the benefit of any resident in Japan except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and other relevant laws and regulations of Japan).

The Netherlands

Qualified investors

Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that it will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in The Netherlands in reliance on Article 3(2) of the Prospectus Directive unless:

- (a) such offer is made exclusively to legal entities which are qualified investors (as defined in the Dutch Financial Markets Supervision Act (*Wet op het financieel toezicht*, the "FMSA") in The Netherlands and which includes authorised discretionary asset managers acting for the account of retail investors under a discretionary investment management contract) in The Netherlands; or
- (b) standard exemption logo and wording are disclosed as required by Article 5:20(5) of the FMSA; or
- (c) such offer is otherwise made in circumstances in which Article 5:20(5) of the FMSA is not applicable,

provided that no such offer of Notes shall require the Issuers or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expressions (i) an "offer of Notes to the public" in relation to any Notes in The Netherlands; and (ii) "Prospectus Directive", have the meaning given to them above in the paragraph headed with "Prohibition of Sales to EEA Retail Investors".

Zero Coupon Notes

Directors' report

The Board of Directors of Compass Group International B.V. (the "Company") hereby presents its financial statements for the year ended on 30 September 2015.

General information

The Company's business objectives are being an intermediate holding company and providing financial support to other companies within the Compass Group. The Company is part of a group of companies of which Compass Group Plc, a company incorporated in England and Wales is the ultimate parent company. In undertaking its decisions the outcome of the decision for the Company as well as the outcome for Compass Group as a whole is taken into account. The Company is a wholly owned subsidiary of Compass Group International Coöperatief W.A.

At 2 December 2013, the Company changed its Articles of Association to reflect the change in financial yearend. The financial year of the Company now runs from 1 October up till and including 30 September.

It should be noted that the comparative figures relate to the 21 months period ended 30 September 2014.

Financial information

The financial year ended 30 September 2015 can be characterised as a period with a continuing strong financial position.

During the year ended 30 September 2015, the Company received dividends for a total amount of EUR 704 million from its subsidiaries.

In the year ended 30 September 2015, the investments in and loans to various countries were reviewed as part of the yearly impairment review. Based upon the estimated future cash flows of the various countries, the Company decided that the realisable value of certain companies in these countries was significantly lower than the carrying value. Further, the Company decided that for certain companies in these countries, the impairment allowance could be reversed. A net reversal of the impairment loss of EUR 104 million (2013-2014: impairment loss of EUR 25 million) was recorded in the profit and loss account.

Significant risks and uncertainties

As part of the annual business cycle, the board of directors is requested by Compass Group Plc to participate in a formal risk assessment process on key financial controls. As part of the process the board of directors is required to identify and document major risks and appropriate mitigating activities and controls and monitor and report to Compass Group Plc on the effectiveness of these controls. The board of directors is also required to sign biannual confirmations of compliance with key procedures and report any breakdowns in, or exceptions to, these procedures.

The Company also has formal procedures in place, with clearly designated levels of authority, for approving acquisitions, new investments in participations, disposals and other capital investments.

The principal risks and uncertainties facing the Company at the date of this Report and the systems and processes the Company has in place to manage and mitigate these risks are as follows:

- **Regulatory and political environment:** Compass Group is a global company operating in countries and regions with diverse economic and political conditions. The operations and earnings may be adversely affected by political or economic instability. However, we remain aware of these risks and look to mitigate them wherever possible.
- **Acquisitions and investments:** Potential acquisitions are identified by the operating companies and subject to appropriate levels of due diligence and approval by the Company's and Compass Group Plc management.
- **Information technology and infrastructure:** The Company relies on a variety of IT systems in order to manage and deliver services and communicate with our customers, suppliers and employees. There is minimal inter-country dependence on IT systems and the Company has appropriate disaster recovery plans in place.
- **Tax risk:** In an increasingly complex international tax environment, a degree of uncertainty is inevitable in estimating our tax liabilities. The Company exercises its judgment and seek appropriate professional advice in assessing the amounts of tax to be paid and the level of provision required. The effective rate of tax may be influenced by a number of factors, including changes in laws and accounting standards, which could increase the rate.

Personnel related information

The directors' remuneration package links corporate and individual performance with an appropriate balance between short and long term elements, and fixed and variable components.

Information regarding financial instruments

The Company's financial instruments comprise cash, loans receivable, borrowings and preferred shares. The Company does not trade in financial instruments. The Company's policies are designed to mitigate the impact of fluctuations in interest rates and exchange rates and to manage the Company's financial risks.

Foreign currency risk

The Company's policy is to match as far as possible its principal projected cash flows from long term receivables by currency to actual or effective borrowings in the same currency. Fluctuations in exchange rates have given and will continue to give rise to translation differences, mainly for receivables that are not matched by borrowings in the same currency. The Company is only partially protected from the impact of such differences through the matching of cash flows from receivables to currency borrowings.

Interest rate risk

The Company's policy is to ensure that it is not materially exposed to fluctuations in interest rates in its principal currencies. This policy is implemented by matching interest rates on borrowings and preferred shares to the interest rate on receivables.

Liquidity and cash flow risk

The Company's policy is to ensure that the repayment schedule of its loans due from group companies approximates the repayment schedule of its loans due to group companies, thereby reducing the company's exposure to liquidity and cash flow risk to an acceptable level.

Credit risk

The Company is protected when it cannot meet its liabilities under the preferred shares as a result of non-payment by its debtors of the corresponding loan receivables. Under a limited recourse, security and guarantee agreement the Company's exposure is then effectively limited to Euro 100 million at maximum for which amount an asset is retained by the Company. Further, the Company has guaranteed towards Compass Group Plc and Compass Overseas Holdings No 2 Ltd the performance by its parent company COOP of COOP's obligations towards both parties under the limited recourse, security and guarantee agreement. As security for this guarantee, the Company has pledged part of its receivables, amounting to EUR 1,885 million as per 30 September 2015, against group companies to Compass Group Plc and Compass Overseas Holdings No 2 Ltd.

Internal control of processes, procedures and risk management

In accordance with the Compass Group Plc guidelines, the Company is required to identify and document each substantial risk, together with the mitigating actions implemented to manage, monitor and report to management the effectiveness of these key financial controls.

Information concerning application of code of conduct

The Company remains committed to the highest standards of business conduct and expects all of its employees to act accordingly. The Compass Group Speak Up policy (which is an extension of the Code of Ethics, now incorporated within the Compass Group's Code of Business Conduct, which is available on the Compass Group Plc website: www.compass-

group.com) sets out arrangements for the receipt, in confidence, of complaints on accounting, risk issues, internal controls, auditing issues and related matters which would, as appropriate, be reported to the Compass Group Plc Audit Committee.

The Compass Group's anti-fraud policies are a subset of the Code of Business Conduct which does not tolerate any activity involving fraud, dishonesty or deception.

Information on male/female partitioning of board members

The management board consists of 50% male and 50% female members.

Future developments

The Directors of the Company have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future in view of the Company's shareholders' equity, which amounts to more than 40% of the Company's assets. For this reason, they continue to adopt the going concern basis in preparing the financial statements.

The Company does not expect any major changes in its financing and personnel structure for the next financial year.

Amsterdam, 22 April 2016

Notes to the financial statements for the year ended 30 September 2015

1 Reporting entity

Compass Group International B.V. (the ‘Company’) is a company domiciled in the Netherlands. The address of the Company’s registered office is Laarderhoogtweg 11, 1101 DZ Amsterdam. The main activities of the Company are that of an intermediate holding company involved in targeting for acquiring participations in different companies active in the food-service industry and providing financing to Group Companies.

The Company applies Section 408 of the Netherlands Civil Code and paragraph 4(a) of IFRS 10, which exempts the Company from preparing and filing consolidated financial statements of the Company and its subsidiaries. The separate financial statements of the Company and its subsidiaries are included in the consolidated financial statements of its ultimate parent company Compass Group Plc., which are filed with the Chamber of Commerce in Amsterdam.

On 2 December 2013, the Company’s Articles of Association were amended as follows: the financial year shall run from 1 October up to and including 30 September. The year 2014/2015 covers the twelve month period 1 October 2014 to 30 September 2015, whereas the year 2013/2014 covers the 21 month period 1 January 2013 to 30 September 2014.

2 Basis of preparation

(a) Statement of compliance

The separate financial statements (hereafter “financial statements”) have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union (EU-IFRS) and in accordance with Part 9 of Book 2 of the Netherlands Civil Code. The financial statements were authorised for issue by the Board of Directors on 22 April 2016.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis.

(c) Functional and presentation currency

These financial statements are presented in euros, which is the Company’s functional currency. All financial information presented in euros has been rounded to the nearest million, except when otherwise indicated.

(d) Use of estimates and judgements

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the period ending 30 September 2015 are included in the following notes:

- Note 7 – impairment test: key assumptions underlying recoverable amounts, future cash flows and discount rates.

(e) Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values for financial assets and liabilities.

The Company has an established a control framework with respect to the measurement of fair values. This includes a valuation team within the Compass Group that has overall responsibility for overseeing all significant fair value measurements.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- *Level 1*: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- *Level 2*: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- *Level 3*: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following note:

- Note 13 – financial instruments.

3 Significant accounting policies

The Company has consistently applied the following accounting policies to all periods presented in these financial statements.

During the year, the Company has adopted the following new standards, amendments to standards and interpretations:

IFRS 7 Financial Instruments: Disclosures

The adoption of this new standard did not impact the financial statements of the Company.

(a) Finance income and finance costs

The Company's finance income and finance costs include:

- interest income;
- interest expense;
- preferred coupon on preference shares issued classified as financial liabilities; and
- the foreign currency gain or loss on financial assets and financial liabilities;

Interest income or expense is recognised using the effective interest method.

(b) Dividend income

Dividend income is recognised in profit or loss on the date that the Company's right to receive payment is established and when it is more likely than not that the dividend will be received.

(c) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences are generally recognised in profit or loss. Non-monetary items in a foreign currency that are measured based on historical cost are not translated.

(d) Income tax

Up till and including 25 June 2013, the Company was the head of a fiscal unity with other Compass Group Companies in the Netherlands. Consequently, the Company is jointly and severally liable for the income tax debts of the fiscal unity.

As from 25 June 2013, the Company is part of a fiscal unity. Its shareholder, Compass Group International Coöperatief W.A. is the head of the fiscal unity. Consequently, the Company is jointly and severally liable for the income tax debts of the fiscal unity. The corporate income tax is accounted for by the head of the fiscal unity and is not charged to its subsidiaries. Therefore no corporate income taxes are accounted for by the Company.

(e) Investments in subsidiaries

Investments in subsidiaries are valued at cost less impairment losses.

(f) Financial instruments

The Company classifies non-derivative financial assets into loans and receivables category.

The Company classifies non-derivative financial liabilities into the other financial liabilities category.

(i) Non-derivative financial assets and financial liabilities – recognition and derecognition

The Company initially recognises loans and receivables issued on the date that they are originated. All other financial assets and financial liabilities are recognised initially on the trade date.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred, or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset. Any interest in such derecognised financial assets that is created or retained by the Company is recognised as a separate asset or liability.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

(ii) Non-derivative financial assets – measurement

Loans and receivables

These assets are initially recognised at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at amortised cost using the effective interest method.

(iii) Non-derivative financial liabilities – measurement

Non-derivative financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method.

(iv) Share capital

Ordinary shares

Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity.

Preference shares

The Company's redeemable preference shares are classified as financial liabilities, because they bear non-discretionary dividends and are redeemable in cash by the holders. Non-discretionary dividends thereon are recognised as interest expense in profit or loss as accrued.

(g) Impairment

(i) Non-derivative financial assets

Financial assets not classified as at fair value through profit or loss are assessed at each reporting date to determine whether there is objective evidence of impairment.

Objective evidence that financial assets are impaired includes:

- default or delinquency by a debtor;
- restructuring of an amount due to the Company on terms that the Company would not consider otherwise;
- indications that a debtor or issuer will enter bankruptcy;
- adverse changes in the payment status of borrowers or issuers;
- the disappearance of an active market for a security;
- observable data indicating that there is measurable decrease in expected cash flows from a Company of financial assets.

For an investment in an equity security, objective evidence of impairment includes a significant or prolonged decline in its fair value below its cost.

(ii) Non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, the investments and loans and other amounts receivable are grouped together into countries that generates cash inflows and that are largely independent of the cash inflows of other countries.

The recoverable amount of a country is the greater of its value while being part of the Compass Group and its investment value less costs to sell. Value while being part of the Compass Group is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the country.

An impairment loss is recognised if the carrying amount of an asset or a country exceeds its recoverable amount.

Impairment losses are recognised in profit or loss. The Company assesses in subsequent financial periods, whether indications exist that impairment losses previously recognised may no longer exist or may have decreased. If any such indication exists, the recoverable amount of that country is recalculated and its carrying amount is increased to the revised recoverable amount. The increase is recognised in profit or loss. A reversal is recognised only if it arises from a change in the assumptions used to calculate the recoverable amount and the extent that the country's carrying amount does not exceed the cost of the investment or loan or amounts receivable if no impairment loss had been recognised.

The impairment loss of EUR 2 million relates mainly to write-off of the indirect investment in Papua New Guinea for EUR 2 million. The write-off of Papua New Guinea is caused by the general economic conditions in Papua New Guinea.

The reversal of the impairment loss of EUR 106 million relates mainly to Italy (EUR 66 million), Portugal (EUR 33 million) and Argentina (EUR 7 million).

For Italy the stabilizing economic conditions and the increased emphasis on cost reductions resulted in increased margins by 1.9%, thus resulting in higher expected cash flows for the future.

In Portugal, the stabilizing economic conditions resulted in an increase in expected growth rate from 1.2% to 1.5% per year till 2020. Further, due to long term contract wins, the expected sales volume increased by 15%. In addition, the decrease in the Portuguese tax rate from 28% to 23% resulted in additional higher expected future cash flows.

For Argentina, the decrease in the discount rate (from 28.2% to 24.6%) and the local inflation rate (from 13.9% to 12.4%) results in a higher residual value of the investment in Argentina and therefore the provision for impairment losses could be released.

Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- credit risk;
- liquidity risk;
- market risk.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Compass Group Plc Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Compass Group Plc Audit Committee is assisted in its oversight role by the Compass Group Plc Internal Audit

Department. The Compass Group Plc Internal Audit Department undertakes both regular and *ad hoc* reviews of risk management controls and procedures, the results of which are reported to the Compass Group Plc Audit Committee.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from group companies.

The carrying amount of financial assets represents the maximum credit exposure:

	30 September 2015	30 September 2014

Receivables	2,700	2,418
Cash balances	5	97
	<hr/>	<hr/>
Total	2,705	2,518
	<hr/>	<hr/>

Loans and receivables

The Company granted loans to group companies of EUR 2,700 million at 30 September 2015 (30 September 2014: EUR 2,418 million).

Cash and cash equivalents

The Company held cash and cash equivalents of EUR 5 million at 30 September 2015 (30 September 2014: EUR 97 million). The cash and cash equivalents are held with bank and financial institution counterparties, which are rated A- to A based on rating agency Standard & Poor ratings.

Loans and payables

The Company has liabilities from preferred shares payable towards group companies for an amount of EUR 1,885 million (30 September 2014: EUR 1,695 million). The Company is protected when it cannot meet its liabilities under the preferred shares as a result of non-payment by its debtors of the corresponding loan receivables. Under a limited recourse, security and guarantee agreement the Company's exposure is then effectively limited to Euro 100 million at maximum for which amount an asset is retained by the Company. Further, the Company has guaranteed towards Compass Group Plc and Compass Overseas Holdings No 2 Ltd the performance by its parent company COOP of COOP's obligations towards both parties under the limited recourse, security and guarantee agreement. As security for this guarantee, the Company has pledged part of its receivables, amounting to EUR 1,885 million as per 30 September 2015 (30 September 2014: EUR 1,695 million), against group companies to Compass Group Plc and Compass Overseas Holdings No 2 Ltd.

Guarantees

The Company's policy is to provide financial guarantees only to subsidiaries. At 30 September 2015, the Company has issued several guarantees to certain banks in respect of credit facilities granted to subsidiaries (see note 19).

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company aims to maintain the level of its cash and cash equivalents and other highly marketable debt investments at an amount in excess of expected cash outflows on financial liabilities over the next 60 days and the amount of guarantees issued to subsidiaries for cash overdrafts and any guarantees that can be directly called upon by the counterparty.

The gross inflows/(outflows) disclosed in the above table represent the contractual undiscounted cash flows relating to financial assets and liabilities held for risk management purposes and which are not usually closed out before contractual maturity.

The future cash flows on the non EUR denominated financial assets and liabilities may be different from the amount in the above table as exchange rates or the relevant conditions underlying the contingency change. Except for these financial assets and liabilities, it is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates and interest rates– will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Company is exposed to currency risk to the extent that there is a mismatch between the currencies in which borrowings are denominated and the respective functional currencies of Company assets. The currencies in which these transactions are primarily denominated are EUR USD and AUD.

Generally, non EUR borrowings are denominated in currencies that match the cash flows generated by the non EUR assets of the Company, primarily USD, but also AUD. In addition, interest on borrowings is denominated in the currency of the borrowing. This provides an economic hedge without derivatives being entered into and therefore hedge accounting is not applied in these circumstances.

The Company's investments in subsidiaries are not hedged.

Exposure to currency risk

The summary of quantitative data about the Company's exposure to currency risk as reported to the management of the Company is as follows:

Sensitivity analysis

A reasonably possible strengthening (weakening) of the USD, AUD or JPY against the EUR at 30 September would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. The analysis assumes that all other variables, in particular interest rates, remain constant.

The Company has processes and procedures in place which ensures that the substantial risks of the Company are mitigated. As an intermediate holding company the main risks for the company relate to financial risks as discussed in a separate section of this report.

As part of the annual business cycle, the board of directors is requested by Compass Group Plc to participate in a formal risk assessment process on key financial controls. Information regarding financial instruments

The Company's financial instruments comprise cash, loans receivable, borrowings and preferred shares. The Company does not trade in financial instruments. The Company's policies are designed to mitigate the impact of fluctuations in interest rates and exchange rates and to manage the Company's financial risks.

Foreign currency risk

The Company's policy is to match as far as possible its principal projected cash flows from long term receivables by currency to actual or effective borrowings in the same currency. Fluctuations in exchange rates have given and will continue to give rise to translation differences, mainly for receivables that are not matched by borrowings in the same currency.

The Company refers to note 14 for the information on the currencies of the receivables and borrowings.

Interest rate risk

The Company's policy is to ensure that it is not materially exposed to fluctuations in interest rates in its principal currencies. This policy is implemented by matching interest rates on borrowings and preferred shares to the interest rate on receivables.

Liquidity and cash flow risk

The Company's policy is to ensure that the repayment schedule of its loans due from related parties approximates the repayment schedule of its loans due to related parties, thereby reducing the company's exposure to liquidity and cash flow risk to an acceptable level.

Credit risk

Information on the credit risk of the Company is included in note 14 of the Financial Statements.

Under a limited recourse, security and guarantee agreement the Company has guaranteed towards Compass Group Plc and Compass Overseas Holdings No 2 Ltd the performance of the obligations by its parent company Compass Group International Coöperatief W.A. towards both parties. The Company has pledged part of its receivables, amounting to EUR 1,875 million as per 30 September 2016, against group companies to Compass Group Plc and Compass Overseas Holdings No 2 Ltd as security for this guarantee. As a result of the limited recourse, security and guarantee agreement the Company's exposure from this guarantee and its liabilities under the preferred shares are effectively limited to EUR 100 million at maximum for which amount an asset is retained by the Company in the form of an inter group loan receivable.

Information concerning application of code of conduct

The Company remains committed to the highest standards of business conduct and expects all of its employees to act accordingly. The Compass Group Speak Up policy (which is an extension of the Code of Ethics, now incorporated within the Compass Group's Code of Business Conduct, which is available on the Compass Group Plc website: www.compass-group.com) sets out arrangements for the receipt, in confidence, of complaints on accounting, risk issues, internal controls, auditing issues and related matters which would, as appropriate, be reported to the Compass Group Plc Audit Committee.

The Compass Group's anti-fraud policies are a subset of the Code of Business Conduct which does not tolerate any activity involving fraud, dishonesty or deception.

Information on male/female partitioning of board members

The management board consists of 50% male and 50% female members.

Future developments

The Board of Directors of the Company have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future in view of the Company's cash flows and shareholders' equity, which amounts to more than 40% of the Company's assets. For this reason, they continue to adopt the going concern basis in preparing the financial statements.

The Board of Directors of the Company does not expect any changes in their personnel structures.

On 21 December 2016, the Company went through a financial restructuring.

As a result of this restructuring the USD denominated loans, including accrued interest, were transferred to Compass Group International Coöperatief W.A. Further, the Company repaid and cancelled all outstanding preferred shares and received new loan funding from a group company amounting to EUR 353 million. Also, on 21 December 2016, the limited recourse, security and guarantee agreement between the Company, Compass Group Plc, Compass Overseas Holdings No. 2 Ltd and Compass Group International Coöperatief W.A. ended. A security agreement was signed between Hospitality Holdings Ltd and the Company as per the same day which, subject to an equity at risk amount of EUR 17 million, ensures that the Company is protected when it is requested to repay the new loan funding. As security for this protection, the Company has pledged its receivables in so far as related to the new loan funding.

As from 21 December 2016, the Company has become the head of a fiscal unity for corporate income tax purposes together with other Dutch Holding Companies.

As the Company is an intermediate holding company within the Compass Group, the assets consist principally of their shareholdings in and loans to related parties. The ability to satisfy any liabilities is dependent upon the Company's receipt of dividend and interest payments from its financing activities with related parties.

In the financial year 2016-2017, it is intended that the Company will be added as an issuer to Compass Group PLC's Euro Medium Term Note programme (the "programme"). It is further intended that any proceeds received by the Company from noteholders under the programme will be lent to Compass Group PLC under an inter-company loan and that any interest received from such loan will be used by the Company to fund payments due to noteholders. Under the terms of the programme, Compass Group PLC will unconditionally and irrevocably guarantee any amounts due by the Company in respect of notes issued by it under the programme.

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the period ending 30 September 2016 are included in the following notes:

- Note 8 – impairment test: key assumptions underlying recoverable amounts, future cash flows and discount rates.

(g) Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values for financial assets and liabilities.

The Company has established a control framework with respect to the measurement of fair values. This includes a valuation team within the Compass Group that has overall responsibility for overseeing all significant fair value measurements.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of IFRS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- *Level 1*: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- *Level 2*: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- *Level 3*: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following note:

- Note 14 – financial instruments.

3 Significant accounting policies

The Company has consistently applied the following accounting policies to all periods presented in these financial statements.

During the year, the Company has adopted minor improvements to existing IFRS and interpretations with no impact on its result or financial position.

(a) Dividend income

Dividend income is recognised in profit or loss on the date that the Company's right to receive payment is established and when it is more likely than not that the dividend will be received.

(b) Finance income and finance costs

The Company's finance income and finance costs include:

- financial income;
- financial expenses;
- preferred coupon on preference shares issued classified as financial liabilities; and
- the foreign currency gain or loss on financial assets and financial liabilities;

Interest income or expenses are recognised in the income statement in the period in which they are earned or incurred.

(c) Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency of the Company at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined. Foreign currency differences are generally recognised in profit or loss. Non-monetary items in a foreign currency that are measured based on historical cost are not translated.

(d) Income tax

The Company is part of a fiscal unity. Its shareholder, Compass Group International Coöperatief W.A. is the head of the fiscal unity. Consequently, the Company is jointly and severally liable for the income tax debts of the fiscal unity. The corporate income tax is accounted for by the head of the fiscal unity and is not charged to its subsidiaries. Therefore no corporate income taxes are accounted for by the Company.

(e) Investments in subsidiaries

Investments in subsidiaries are valued at cost less impairment losses.

For common control transactions the Company has elected the following accounting policies for similar common control transactions. For most similar upstream transactions the Company applies fair value accounting as if it had been carried out in an orderly manner between market participants. For downstream transactions in which the Company exchanges for equity in the same country the Company typically applies book value accounting in which the book value is the carrying amount of the subsidiary in the books of the Company. For other downstream transactions the Company typically applies fair value accounting.

(f) Financial instruments

The Company classifies non-derivative financial assets into loans and receivables category.

The Company classifies non-derivative financial liabilities into the other financial liabilities category.

(i) Non-derivative financial assets and financial liabilities – recognition and derecognition

The Company initially recognises loans and receivables issued on the date that they are originated. All other financial assets and financial liabilities are recognised initially on the trade date.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred, or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset. Any interest in such derecognised financial assets that is created or retained by the Company is recognised as a separate asset or liability.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

(ii) Non-derivative financial assets – measurement

Loans and receivables

These assets are initially recognised at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at amortised cost using the effective interest method.

(iii) Non-derivative financial liabilities – measurement

Non-derivative financial liabilities are recognised initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method.

(iv) Share capital

Ordinary shares

Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity.

Preference shares

The Company's redeemable preference shares are classified as financial liabilities, because they bear non-discretionary dividends and are redeemable in cash by the holders. Non-discretionary dividends thereon are recognised as interest expense in profit or loss as accrued.

(g) Impairment

(i) Non-derivative financial assets

Financial assets not classified as at fair value through profit or loss are assessed at each reporting date to determine whether there is objective evidence of impairment.

Objective evidence that financial assets are impaired includes:

- default or delinquency by a debtor;
- restructuring of an amount due to the Company on terms that the Company would not consider otherwise;
- indications that a debtor or issuer will enter bankruptcy;
- adverse changes in the payment status of borrowers or issuers;
- the disappearance of an active market for a security;
- observable data indicating that there is measurable decrease in expected cash flows from a Company of financial assets.

(ii) Non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

(iii) Impairment testing

For impairment testing, the investments and loans and other amounts receivable are grouped together into countries that generates cash inflows and that are largely independent of the cash inflows of other countries.

The recoverable amount of a country is the greater of its value while being part of the Compass Group and its investment value less costs to sell. Value while being part of the Compass Group

is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the country.

An impairment loss is recognised if the carrying amount of an asset or a country exceeds its recoverable amount.

Impairment losses are recognised in profit or loss. The Company assesses in subsequent financial periods, whether indications exist that impairment losses previously recognised may no longer exist or may have decreased. If any such indication exists, the recoverable amount of that country is recalculated and its carrying amount is increased to the revised recoverable amount. The increase is recognised in profit or loss. A reversal is recognised only if it arises from a change in the assumptions used to calculate the recoverable amount and the extent that the country's carrying amount does not exceed the cost of the investment or loan or amounts receivable if no impairment loss had been recognised.

4 New standards and interpretations not yet adopted

The Company's subsidiary in Japan was transferred to another subsidiary of the Company in exchange for shares. The transfer was accounted at book value.

Following the annual impairment calculations that incorporated market and business developments, based upon the expected future cashflows from the various subsidiaries, the Company recognised an impairment loss of EUR 58 million relating to investments in three different subsidiaries. The value in use for these subsidiaries was calculated with a discount rate varying from 6.5% to 12.5%. Further, the Company also decided that the expected future cashflows for one subsidiary has increased and therefore resulted in a reversal of the impairment loss of EUR 6 million.

- credit risk;
- liquidity risk;
- market risk.

Risk management framework

The Company is part of the Compass Group risk management framework and leverages the framework of the Compass Group. The Compass Group risk management policies are established to identify and analyse the risks faced by the Group as a whole, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly by Compass Group to reflect changes in market conditions and the Group's activities. Compass Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Compass Group Plc Audit Committee oversees how management monitors compliance with the Compass Group risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Compass Group Plc Audit Committee is assisted in its oversight role by the Compass Group Plc Internal Audit Department. The Compass Group Plc Internal Audit Department undertakes both regular and *ad hoc* reviews of risk management controls and procedures, the results of which are reported to the Compass Group Plc Audit Committee.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from related parties.

The carrying amount of financial assets represents the maximum credit exposure:

Loans and receivables

The Company granted loans to related parties of EUR 2,731 million at 30 September 2016 (30 September 2015: EUR 2,700 million). The loans to related parties can be split as follows:

	30 September 2016	30 September 2015

	2,731	2,700
	<hr/>	<hr/>

Cash and cash equivalents

The Company held cash and cash equivalents of EUR 31 million at 30 September 2016 (30 September 2015: EUR 5 million). The cash and cash equivalents are held with bank and financial institution counterparties, which are rated A- to A based on rating agency Standard & Poor ratings.

Loans and payables

The Company has liabilities from preferred shares payable towards group companies for an amount of EUR 1,875 million (30 September 2015: EUR 1,885 million). Under a limited recourse, security and guarantee agreement the Company has guaranteed towards Compass Group Plc and Compass Overseas Holdings No 2 Ltd the performance of the obligations by its parent company Compass Group International Coöperatief W.A towards both parties. As security for this guarantee, the Company has pledged part of its receivables, amounting to EUR 1,875 million as per 30 September 2016 (30 September 2015: EUR 1,885 million), against group companies to Compass Group Plc and Compass Overseas Holdings No 2 Ltd. As a result of the limited recourse, security and guarantee agreement the Company's exposure from the liabilities under the preferred shares and the guarantee are effectively limited to EUR 100 million at maximum for which amount an asset is retained by the Company in the form of an inter group loan receivable.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company aims to maintain the level of its cash and cash equivalents and other highly marketable debt investments at an amount in excess of expected cash outflows on financial liabilities over the next 60 days and the amount of guarantees issued to subsidiaries for cash overdrafts and any guarantees that can be directly called upon by the counterparty.

The interest free loan to a related party which is presented under short term liabilities consists of a loan in a partnership for which the Company is its general partner. Therefore any requests for payment of this liability can be settled by a repayment of capital from the partnership.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial assets and liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and excluding the impact of netting agreements:

The gross inflows/(outflows) disclosed in the above table represent the contractual undiscounted cash flows relating to financial assets and liabilities held for risk management purposes and which are not usually closed out before contractual maturity.

The future cash flows on the non EUR denominated financial assets and liabilities may be different from the amount in the above table as exchange rates or the relevant conditions underlying the contingency change. Except for these financial assets and liabilities, it is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates and interest rates– will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Company is exposed to currency risk to the extent that there is a mismatch between the currencies in which borrowings are denominated and the respective functional currencies of Company assets. The currencies in which these transactions are primarily denominated are EUR USD and AUD.

Generally, non EUR borrowings are denominated in currencies that match the cash flows generated by the non EUR assets of the Company, primarily USD, but also AUD. In addition, interest on borrowings is denominated in the currency of the borrowing. This provides an economic hedge without derivatives being entered into and therefore hedge accounting is not applied in these circumstances.

The Company's investments in subsidiaries are not hedged.

Exposure to currency risk

The summary of quantitative data about the Company's exposure to currency risk as reported to the management of the Company is as follows:

	30 September 2016				30 September 2015			
	EUR	USD	AUD	Other	EUR	USD	AUD	Other

Net exposure	(626)	3	-	2	(683)	3	-	34

The following significant exchange rates have been applied during the year:

AUD 1	0.66345	0.68145	0.68094	0.62911

Sensitivity analysis

A reasonably possible strengthening (weakening) of the USD or AUD against the EUR at 30 September would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. The analysis assumes that all other variables, in particular interest rates, remain constant.

	Profit or loss	
	Strengthening	Weakening
	EUR millions	EUR millions
30 September 2016		
USD (5 % movement)	-	-

Fixed-rate instruments		
Receivables related parties	2,024	1,835
